ODYSSEY 2010 – README

Welcome to Odyssey 2010 at the Radisson Edwardian Heathrow. We hope you have a brilliant time and are inspired to join the next two Eastercons after the Bid Session at noon on Sunday.

This booklet contains important information about the convention, and descriptions of the hundreds of items on the programme. It is meant to be read in conjunction with the Pocket Programme Guide, which contains the hotel maps and the programme grids that show you what is happening, when, and where. We have also produced a Kids' Programme booklet for our younger members, and an electronic version is available on our web site.

We have worked hard to ensure the printed programme is as accurate as possible, however it is likely that there will be some last minute changes both before and at the convention - keep an eye on the Newsletter and notice boards around the con for programme updates. We are also hoping to be able to make a special surprise announcement related to Doctor Who.

OPS

Ops is the convention headquarters. If you have a problem related to the convention, go to Ops (room 32 on the third floor) and ask for help. If you have a problem related to the hotel, ask the hotel staff first. If the hotel staff fail to resolve your problem, let Ops know about it and we will do our best to help.

Ops opening times are as follows:

Thursday	9pm to 11pm
Friday	9am to 11pm
Saturday	9am to 11pm
Sunday	9am to 11pm
Monday	9am to 4pm

When Ops is closed, a Duty Committee Member will be available to assist until Ops re-opens. You can identify them by their gold shirt, sash and DCM badge. They will normally be somewhere in the social space, but if you have trouble finding them, anyone with a walkie talkie should be able to get hold of them.

BADGES

You must wear your convention badge at all times when you are in the convention areas of the hotel. You will be challenged if your badge is not visible. If you lose your badge, please report the loss to Ops as soon as possible. If you find a lost badge, please hand it in at Ops.

VOLUNTEERING

A convention the size of Odyssey needs lots and lots of volunteers. A great way to help out while making new friends and having fun (and earning Groats – see below) is by becoming a Gopher. To find out more, come along to one of the Volunteers' Meetings (Thursday 10PM in Newbury 2, or Friday 9pm in room 41) or inquire at the Gopher Hole (room 31).

GROATS

Groats (Gopher Reward Tokens) are given to convention volunteers as a "thank you," e.g. for completing a gophering shift. The denominations available are £1, £2, and the incredibly rare and collectible £5. Groats can be used to buy food or drink in the convention bars (or kept as a souvenir!). Some dealers will accept groats too. You should receive change when you spend them. NB. They can't be exchanged for real money or spent in the hotel shop or the Polo Bar, and they lose their value after the Dead Dog Party.

PHOTOS AND VIDEOS

Please be considerate of others. We appreciate that not everybody likes to be photographed or videoed, so we will be offering special brightly-coloured "NO PHOTO" badge ribbons at Registration. Please avoid photographing people who are wearing these ribbons or who otherwise request not to be photographed, and if you later discover that you accidentally captured a picture or video of somebody who was wearing a ribbon, please delete it.

All photography is banned:

- In the art show.
- In the crèche.
- During the Masquerade (there will be a photo call afterwards).

Flash photography is limited to the first five minutes of panel items and banned during the Cabaret. Please do not block the aisles/doors/fire exits with tripods and other camera equipment.

Except for the above restrictions and any further restrictions we publicise at the beginning of any programme item, members should be aware that they may be photographed or recorded at any time while in public areas. The term "public areas" covers all parts of the hotel other than bedroom space and washroom facilities.

WEAPONS POLICY

No weapon or weapon-like object (whether edged, projectile, bludgeoning etc.) or a facsimile thereof shall be carried within the convention area. The operations manager on duty shall decide what constitutes a weapon and his decision will be final. Any weapon used as part of a costume at the masquerade must be taken to and from the area wrapped. Any weapon sold in the dealers room must remain securely wrapped from the time of purchase and must be taken away from the convention in this manner.

Note that hall costumes are not exempt from the weapons policy. If you are in any doubt as to whether an item counts as a weapon for the purposes of this policy, ask Ops *before* bringing it into the convention. Please use your common sense. Remember the hotel is next to a major international airport, so local police are likely to take very seriously any reports of people seen carrying anything that looks like a weapon.

POSTERS

The hotel has a fairly strict policy about what convention members can put up on the walls. Posters that don't meet the following rules are liable to be removed and disposed of.

- Posters are not allowed in public areas of the hotel.
- Only use White Tack to stick posters up. No Blu Tack, Sellotape, staples, etc.
- Only stick posters to hard surfaces: stone, glass, varnished wood, etc. **Not** wallpaper.
- Posters must be in good taste, professional-looking, and not hand-written.
- Posters must not obscure official hotel or convention signs.

MOBILE PHONES

Please remember to turn off or silence your mobile phone when you are in a programme item. If you absolutely have to take a call, please avoid banging the door and disturbing other audience members as you leave the room.

NEWSLETTER

We will be producing regular newsletters throughout the convention to entertain and inform you about interesting programme items, changes to the programme, local restaurant reviews, etc. The newsletter team is based in room 37, where your submissions (both written articles and photos) will be gratefully received.

This rate is available to all convention members, not just those resident in the Radisson. **NB. if you leave the car park, you will lose any remaining time you had on your ticket, and will have to pay another £5 for the twenty-four hour period from the time of your return.**

Parking is free for blue badge holders. Parking for ordinary motorcycles is free, but not for three-wheelers or motorcycles with side-cars.

INTERNET ACCESS

There is an Internet lounge next to the front entrance of the hotel. There is also free WiFi throughout the hotel. There is a limited amount of bandwidth shared between everyone in the hotel, so please use it considerably.

BSFA AWARDS

The British Science Fiction Association will be presenting its annual awards at 6pm on Sunday in Commonwealth. As a member of the Eastercon you are entitled to vote for the winners, unless you have already cast a vote as a BSFA member. A ballot paper should have been included in your membership pack. Place your completed ballot in the box near Registration or at the BSFA desk in the Dealers' Room. Voting closes at noon on Sunday.

DOC WEIR AWARD

The Doc Weir Award is given at the Eastercon to somebody whom the members consider deserves more recognition for the services they have performed for fandom - a sort of 'unsung hero' award. You should have received a ballot form in your membership pack. Fill it in and bring it to Ops by noon on Monday to place your vote.

HALL COSTUMES

Saturday is Hall Costume day. You should have received three Hall Costume Tokens in your membership pack. Give them to people you see wearing particularly impressive costumes at the convention on Saturday. The person who collects the most tokens will win a prize. You can even give all three to one person if you wish! Don't be too hasty though; some costumers do not dress up until later on in the day.

KIDS' PROGRAMMING

In addition to the free crèche, quite a few items on the programme are particularly suitable for kids. Child and Junior members will have been given a copy of the Kids' Programme book when they collected their badge at Registration.

ADULT PROGRAMMING

A small number of post-9pm items on the programme are adults-only. These items will have a gopher on the door to ensure that nobody under 18 years of age is allowed to enter the room.

KAFFEEKLATSCHES

Kaffeeklatsches are opportunities for small groups of fans to meet and chat to our Guests of Honour over coffee and biscuits. If you would like to take part in one, add your name to the relevant sign-up sheet at Registration. The list will close 2 ½ hours before the Kaffeeklatsch is due to start.

A small number of people will be randomly chosen from those on the list. Their names will be posted on the Registration desk two hours before the Kaffeeklatsch. If you are one of those chosen, you have an hour to confirm that you still wish to attend, otherwise your place will be given to somebody else (so even if you aren't chosen in the first round, check back later in case somebody has dropped out).

OTHER SIGN-UPS

There will also be sign-up sheets at Registration for the Crisis Management Workshops, the Drawing Comic Art item, and more.

If you wish to take part in the Whisky Tasting (over-18s only!), sign up at Ops from 10am on Saturday (first come first served).

BEYOND CYBERDROME 3D BY SMS

BC's been away for a few years now and we've appreciated both the rest and the opportunity to do other stuff (*I'm Sorry I Haven't a Robot* and *The Great Crystal Cyberdrome Exhibition* for instance), but the Kidz in The Hallz are getting older and forming into gangs and, frankly, we're not brave enough to say no to enthusiastic kids with spanners.

So, what's new with Beyond Cyberdrome 2010?

Well, as you'll have noticed from the snazzy new logo above, we're "Extending BC into another Dimension". How slick is *that* for a slogan?

But, *unusually* for an overused advertising term, we actually *mean* it.

Whilst BC has usually been played in a fundamentally 2D Universe (on a flat plane), this year we're planning on building a 3D 'course' on which Up and Down will play a central part of the action.

Beyond Cyberdrome: Development Projection

And, where better to experiment with this new dimension than in the Radisson Non-Euclidean, wherein people become lost in Escher-Space/Time and, between conventions, even the central hall can completely change dimensions and appearance?

Pedants will say, "Um, Smuzz," (I'm on first name terms with pedants), "I think you'll find 'BC: Air' and 'BC: Sea' will have covered the Up/Down dynamic pretty thoroughly." To them we say: "Shhh. You're spoiling our pitch for people with shorter memories."

So, essentially, we're asking you to come to the Robot Workshop and build a robot which is able, not just to move horizontally, but also:

- Across an obstacle course with 'Instant Down Portals.' (Yes. That's 'Holes.')
- Up an incline. (Steepness increasing with height)
- Down a steep incline under control.
- Along a narrow bar.
- Vertically up. (That's a challenge. Yes, we're happy however you do it.)
- Vertically down. (Yes, that would be, 'Falling and Surviving.')
- Any/all of the above, while duelling another robot!

As ever, if you can come up with *anything* interesting on this theme, we'll try to work it in. Oh... and, if you're **really** lucky, you'll get **3D Glasses** too! But, just in case, bring yer own...

THURSDAY

Fandom as Gerontocracy. 2pm-3pm. *Room 41*. Caroline Mullan and Greg Pickersgill consider fandom in the light of the ages of its active participants. Is the greying of fandom real or only perceived? Caroline Mullan and Greg Pickersgill.

Old Time Radio - The Outer Limits. 3pm-4pm. *Commonwealth*. It's 1955 - Steve is the best pilot there is and today is the day he is taking a new ship on a test run to clear the outer limits of the earth's gravitational pull. After he breaks radio contact and has been out of contact for ten hours with no fuel - things look dangerously worrying. But he returns with some ominous news...

Clarke's Law - Is Today's Technology 'Magic' to Most People? 6pm-7pm. *Connaught.* "Any sufficiently advanced technology is indistinguishable from magic." Is the average (reasonably educated) person finding science and technology easier to understand or is it increasingly seeming like magic? What are the likely consequences? Martin Easterbrook (mod), Stephen Hunt, Andrew Patton, Pepper and Shana Worthen.

Alien Invasions - How Would They Attack? How Do We Defend? 6pm-7pm. *Room 12.* Suppose the aliens really did invade... What would be the most effective way for them to attack? What could Earth practically do to defend itself? What can we do in advance to make Earth more secure? Michael Abbott (mod), Ming, Anne KG Murphy, Nige and David U.

Dead Dog Party. 6pm-7pm. *Royal C+D.* Everyone who's still here collapses and socialises with the other survivors. There are rumours that Esther Friesner will be practising cheeblemancy... Let the hamster tell your fortune and raise money for the homeless! Esther Friesner.

Sherlock Holmes - Did You Like the Movie? 6pm-7pm. *Room 41.* Does it bear any relationship to the books? Does this matter? Were the writers targeting it at slash fans? Does it have a Steampunk element? John Coxon (mod), Richard Crawshaw, DC, Herr Döktor and Peter Harrow.

Brian Ameringen, Sacha Haworth, Persephone Hazard (mod), Liam Proven and Doug S.
