WESTERCON 70

CONALOPE

JULY 1-4, 2017 TEMPE, AZ

We're branding our 2017 event **ConAlope** just so we can have fun with our theme of aliens, as we commemorate the 70th anniversary not only of **Westercon** but also of the crash landing of a UFO (or a military surveillance balloon) at Roswell, NM on 8th July, 1947.

As Westercon 70 is being sponsored by Leprecon Inc, it will also be **LepreCon 43**. LepreCon is a general science fiction convention with a special focus on art. It also incorporates **CONflagration**, a gaming event.

The convention hotel is the **Tempe Mission Palms** and room rates have been locked at just \$109 per night!

westercon69.sched.org

Westercon 69 programming is now available online via a mobile-friendly website at westercon69.sched.org. No account is necessary to view the programming information. Set up a free account with Sched and you can create your own custom Westercon 69 schedule.

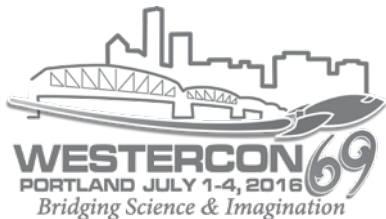

Don't Miss an Event

All of Westercon 69 programming is listed online. Panels can be sorted by date, track topic, location, and by panelist. When viewing panelist schedules, the information is separated into “speaking” and “moderation” schedules and is not integrated with the rest of the panelist’s schedule.

Stay Up-to-Date

Sched will cache the schedule data to your mobile device for offline access. Use the “refresh” button in the options menu while connected to the internet and Sched will update your programming data with the latest Westercon 69 information. Westercon 69 staff will update Sched data regularly throughout the con.

Activities & Events

Art Show

We're getting the band back together! Run by Lacey and Stuart Axmaker, whom you may recognize from many years of Orycon and Westercon Art Shows, Westercon 69's Art Show will feature docent tours, art critiques, and a special event on Sunday, the Kinetic Sculpture Races. So get ready for the fun!

Our Art Show will feature artists we were familiar with "back in the day" as well as (as always) new artists and new art expressions. Another exciting addition to the Art Show is inspired by our Steampunk element: the ability to reserve mannequin spaces to show off costumes or cosplay. We know you want to show off your creations and they do not have to be for sale...or they can...your choice.

Check in to see if space is still available. We're across the way from the main lobby, in the Exhibit Hall (next to the ground floor of the parking garage.)

Children's Programming/WesterKIDS

We have a full slate of children's programming on all 4 days of the convention, as part of our effort to make Westercon 69 a family-friendly event (and to reel young'uns into fandom!) Our programs explore interests like crafts, gaming, costuming, music, science and stories/writing; and are all scheduled in one centrally located room (Morrison.) Some programs will be suitable for children as young as 3, others for ages 7-12, and some for all ages. Age ranges are included in some program descriptions.

Special events will include: two dances, two game tournaments, a costume parade, a monster PJ party, a kinderfilk concert, making paper armor, mermaid visitations, and gaming activities with the folks from the Interactive Museum of Gaming and Puzzlery (IMOGAP)! Please be aware that for a few activities (costume parade and game tournaments,) we need those wishing to participate to arrive on time.

Our programs are not child care and Westercon rules and common sense should guide you in whether or not to accompany your child. We hope to see you in the Morrison room!

Creation Station

Welcome Home! Creation Station's ambiance is a welcome wagon for anyone new to the con-going experience; be it their first experience of any con, genre, fandom, form of fan creation, cosplay, performance, etc. Founded in 2003 as the Kumoricon_fanfiction community and having run around 20 programming rooms at anime, fantasy, science fiction, hybrid, and other cons in OR, WA, BC, and AB, Creation Station is a collective of panelists who run immersive rooms of uniquely interactive programming for folks at all levels of experience.

Creation Station's all-ages programming focuses on kid-friendly, hands-on crafts with all materials provided; tween-led content; empowerment, awareness, and inclusivity-oriented panels; many how-to demos, discussions, and tips for cosplay, props, and writers of all ages and levels of experience (newbies welcome); and even 18+ content.

Join us in the Washington room. We will have special events nightly:

(Fri, 6pm-11pm) Whovian hands-on crafts/fan creation-making & fandom celebration. Make sonic screwdrivers, start a scarf like the Doctor's, make tiny TARDIS hats & bow ties, learn Gallifreyan, and come win prizes for all the above, your cosplays, scene recreations, fan creations, and trivia savvy @ Tiptoe Through the TARDIS Fandom Celebration!

(Sat, 7pm-10pm) We are honored that GEAR Con's legendary Steampunk Scrapheap Challenge will be hosted in our room!

(Sun, 8pm-10pm) Can You Survive a Journey Through Time? Quiz Show! A fan favorite from OryCon with all-new trivia questions. You really, truly don't want to miss this glorious and uproarious treat. Win prizes, put all that cinematic erudition to use, and prepare to giggle.

Dealers' Room

Need that perfect gear for your steampunk outfit? Looking for a particular book? A fabulous piece of jewelry? Curious to know what the latest games are? A clever T-shirt? Come to the Dealer's Room! We have almost 40 vendors just waiting to supply you with almost anything your heart desires. We're across the way from the main lobby, in the Exhibit Hall (next to the ground floor of the parking garage.) Come visit!

Filk

Our Filk track offers a variety of opportunities for Westercon members to both listen to and perform music. We offer a concert series for listeners and opportunities to perform or listen in our Band Scramble, Two-Shots, and nightly Filk Circles. Sign-ups for Band Scramble and Two-Shots performers are at the Info Desk. No sign-ups are necessary for Filk Circles. Listeners are always welcome and do not need to sign-up in advance for any performance.

Except for the Sunday GOH concert in the main ballroom, all Filk programming will be in the Pacific Northwest Ballroom (Oregon, Idaho, and Alaska rooms) down the hallway on the right of the hotel check-in desk, on the way to the pool.

See page 22 for a concert schedule.

Film Festival

The Westercon 69 media room (Hamilton) will be screening independent films from around the world. We are now in an indie film boom, with many award-winning shorts and features being produced every year, and seen only by film festival audiences. At Westercon 69, the opportunity to watch the best that indie film offers in science fiction and fantasy, horror, animation, comedy, fan, documentary, and late night anime is yours.

Highlights include screening steampunk shorts and features; horror shorts based on the writings of H.P. Lovecraft and Edgar Allen Poe; international animation shorts; and more. Immerse yourself in anime! From the current hits to the shows we all know and love, late night anime will be sure to have you coming back for more. From comedy to classics, paranormal to fantasy, and a healthy dose of sci-fi on top, you'll be sure to walk into an anime that fits your style at any time. Come, take a load off, and enjoy the best of films from around the world.

See page 23 for Film Festival schedule.

Gaming

Sponsored by GameStorm, we will have a well-stocked game library for you to choose from. View the amazing selection of games in the game library on the GameStorm website (www.gamestorm.org). There will be some scheduled gaming as well as open play -- stop by the game room (St Helens room) to see what's happening when, and to sign-up to play. We'll also have a representative from the Men in Black running Steve Jackson games all 4 days. SJ games includes the classic Chez Geek (with the new Spring Break Expansion), Castellan (a 2-4 player castle building game), and Revolution (a secret bidding euro styled game involving gold, blackmail, and force), plus various Munchkin sets including the new Marvel Munchkin!

Kaffeeklatches & Literary Beers

Meet with authors and artists for a cup of coffee/tea or an evening drink. Daytime Kaffeeklatches will be located in the Multnomah Ballroom (please bring your own beverage) and evening drinks will located in the hotel's bar, The Gather! (please order your own beverage). Seating is limited, sign up at the Information Desk in the main lobby.

See pages 21-22 for meet-up schedule.

Hall Costumes

What would a con be like without people in costumes roaming the halls? A lot less colorful all around and perhaps a bit less interesting for some. Costumes that people can see up close can be fascinating regardless of whether the outfit is simple or extravagant. It is a form of self-expression called wearable art and while some may say “Art who?”, many would be disappointed to see it disappear. Hall costumes have started many a conversation and more than a few friendships. They’ve been around since the early days of the conventions and will most likely (hopefully) be around for a long time to come. Why do we give awards to people who make and/or wear these sometimes-silly, sometimes-scary, frequently thought provoking creations? To say “Thank You” for visually livening up a weekend for a lot of people and for having the courage (and talent) to do so. So to everybody in the “funny clothes” this weekend -- Thank you!

Hospitality

Does your panel schedule not leave enough time to visit a restaurant? Hospitality, located in room 1555, is a perk where all membership can find lots of good munchies --both healthy and not-so-healthy. Come join us for snacks, quick food at meal time hours, or for evening nibbles when you get the munchies.

When you wake up, at whatever hour that happens to be, wander in for a fresh-brewed cup of coffee and some friendly, fandom conversation. Breakfast will be the usual suspects with bagels, toast, cereal, breakfast breads, fruit and oatmeal. Our lunch and dinner menus feature wraps and sandwiches. We will have options for all diet types and ingredient lists will be posted on food at time of service.

For a special sweet-treat, join us Saturday at 8pm for our Ice Cream Social. Please note food and drink cannot be taken from the Hospitality room. Our hours are Friday through Sunday, 7am-10pm. Monday, 7am-4pm.

Masquerade

Join us for the Westercon 69 Masquerade Saturday night at 7pm in the Multnomah room and see your fellow members of the convention present their costumes on stage. The masquerade is not a Masquerade Ball, where you show up in costume and dance. The modern science fiction convention masquerade entry is usually a short presentation of 30 seconds to 2 minutes, depending on the number of people presenting.

Note: The Children's Costume Parade will take place on Saturday from 5:30 to 6pm, check with Children's Programming for more details.

Participants and Potential Participants

(Yes, there is still time to enter.)

There are two Pre-Masquerade Meetings: **Friday at 3pm** and **Saturday at 10am** in the Broadway room. All entries must be turned in no later than the end of the second pre-masquerade meeting.

Each entry must be represented by at least one person at one of the meetings, unless prior arrangements have been made with the Masquerade Director. At the meeting, you will turn in your entry forms, along with any music or soundtrack and documentation. The Masquerade staff will review your

paperwork with you, and will inform you about Masquerade Green Room times and procedures. Note: to participate in the Masquerade, you and any helpers must be members of the convention.

This meeting benefits both you and the masquerade staff. You will find out locations and times you need to know to participate, and you will be assured that the Masquerade staff understands your requirements. By meeting with you prior to the event, we will get a real sense of what you and everyone else will be doing. This will help in planning a running order for the show and how to best set up the Masquerade Green Room.

Judging

Participating in the competitive judging is voluntary. If you don't like competing, or if your costume doesn't actually qualify for competition, you are still welcome and encouraged to appear on stage as an Exhibition entry. Appearing on stage gives your outfit maximum exposure to the convention attendees with minimal amounts of work. Everyone eligible for judging may participate in both workmanship and presentation judging. After all, if you don't enter, you won't win!

Presentation: Evaluates how your costume is presented on the stage. This is not so much

about the quality of your performance as how well you show off your costume. Our presentation judges will assess how you (or your model) and your costume appears on stage. Do you inhabit your character's body when you move on stage? Is your presentation (no matter whether it's a walk-through or a full-fledged skit) appropriate to the character and costume? The judges discuss these kinds of questions as they debate which entries deserve prizes.

Workmanship: This is the “up close” judging of a costumer's construction techniques. This occurs before the event in the Masquerade Green Room. You will have the opportunity to show off details that you're particularly proud of, that won't be that visible on stage, as well as chat with the judge about overall construction tricks and techniques used to create your costume. You can skip Workmanship judging and still participate in Presentation judging.

If you have a re-creation costume (i.e. a costume that's a recreation of a costume from another source, like pretty much anything worn by characters on TV, film, gaming, in manga, or anime), you should bring along some form of documentation for the judges. This documentation doesn't have to be elaborate: a few photos of the original will suffice. The judges

may not be familiar with the source of the costume. You want to give them an idea of the original that inspired your looks and possibly a brief description of how the character behaves. Turn your documentation in with your entry forms and your music/soundtrack at the Pre-Masquerade Meeting. You may want to keep a duplicate copy, in case of accidents.

Masquerade Competition Classes Available

Entries are divided into classes based on the skill and experience of their members.

Young Fan: Entrants no older than 16 who participated in the design and/or construction of their costumes enter here. Children wearing costumes designed and made for them by adults should enter in the Novice or Open categories.

Novice: The Novice class exists to give Masquerade newcomers a chance to compete without being judged against more experienced entrants. Entrants must have not won a major prize in any other Masquerade. (A “major prize” is an award that doesn't involve the words “Honorable Mention.”) This category is ideal for first-time entrants, and for those with limited experience. Professional costumers, however, can't enter as a Novice, even if it's a first Masquerade for him/her. (A professional costumer is a person who made more

than 50% of his/her living in the last year off of costuming.)

Open: Anyone who has won a major prize at a Masquerade, or a Novice who's feeling extremely confident. Professional costumers desiring to compete would enter in this class.

Exhibition: This category is for those who either don't want to be included in the judged categories or have a costume that doesn't qualify for competition, but still want the chance to show off their costume or presentation in front of a large audience.

Rules

- Every entrant must be a registered attendee of Westercon 69. If the maker and presenter of the costume are different people, both must be attending members.
- At least one representative of your group must attend the Pre-Masquerade Meeting. Failure to attend the meeting (without making previous arrangements with the Masquerade Director) can result in your entry being taken out of the Masquerade. More information on this important meeting is at the end of this section.
- You do not have to create a skit or presentation. A simple catwalk (walk on, pause, turn, pause, walk off) works too.

- Unmodified purchased or rented costumes may not be submitted for judging, with the following exception: costumes with over 50% modified purchased parts may ask for judging, as long as those purchased elements are thoroughly disclosed to all judges (so that they may be discounted where appropriate).

Practical application of the above rule: if you bought your costume and then altered it yourself to fit better, you are still ineligible for competition unless the alterations significantly changed the original garment structure. If all you are doing is adding tape, trim or paint to a garment and not altering the garment at all, you are ineligible to be judged. If you made serious modifications to the items, you may be eligible to compete. It will be the Masquerade Director's decision in that case. Check early to find out.

- If your costume doesn't qualify for competition, we still welcome your presence on stage in the Exhibition category!
- Each person may appear on stage once, in one costume. No dual entries.
- Presentations have strict time limits. Solo entrants are limited to one minute or less. Entries of two or more are limited to two minutes. If you have a REALLY LARGE group,

contact the Masquerade Director before the Masquerade about the time you will need. Any entry going beyond the stated time limit can be disqualified by the judges.

- Entrants under the age of 18 must have a parent or guardian sign the entry form.
- This is a family show. Your costuming – and your skit – need to have a PG-13 rating or less. No costume is NO costume! · No materials or effects that will leave a mess on stage or in the green room are allowed.
- No materials or effects that may ruin another entrant's costume are allowed. Don't assume you can paint while you wait. You can't.
- No live animals on stage, unless it's a service animal.
- No pyrotechnics or any other open flames are allowed.
- Weapons must be peace-bonded when not on stage.
- If you plan on wielding your weapon or using martial arts leaps, kicks and/or punches as part of your presentation, you must advise the Masquerade Director exactly what you plan on doing on stage at the Pre-Masquerade meeting. Failure to do so can result in disqualification. This is for the safety of the entrant, the judges, the MC, the Masquerade staff, and other entrants.

Off-Site Beer Tours

Portland is a beer lover's delight with breweries, pubs and, best of all, brew pubs. At Westercon we have three ways to enjoy some of Portland's, the Northwest's and the World's best craft beers and ciders.

We will have maps of nearby pubs, brew pubs and cider houses that are within walking distance or a short MAX ride from our hotel. There will be at least one bus brew tour and one cycle tour. The cycle tour is especially fun as everyone gets on a multi-pedal surrey and you pedal from pub to pub under the guidance of an experienced (and sober) guide. We even are planning a Guest of Honor tour with one of our esteemed guests.

If you're interested, stop by the Info Desk in the main lobby for details and the sign-up sheet.

Westercon 71 Site Selection

One of the important traditions at Westercon is selecting the site of a future Westercon. Westercon 69 will be conducting site selection for Westercon 71. All supporting and attending members of Westercon 69 are entitled to vote in site selection.

Writer's Workshop

Writing workshops provide the opportunity to get your work critiqued by writers, editors, and other professionals who can assist in putting the polish on your work that might mean the difference between an acceptance and a rejection. Westercon 69 has two amazing options for getting your words in front of pros. Attendees who submitted their work to the main Writing Workshop will have 10k words read and critiqued by four pros each!

For attendees who missed out on this opportunity, we also have the Open Read & Critique! Writers who sign up for the ORC will get five minutes to read 750 words of their work, then those listening will have an allotted time to give the author feedback. If you'd like to take part in the ORC, please email orc@westercon69.org to sign up. Please see the website for submission guidelines regarding genre. Don't miss out on these opportunities!

Volunteers

Have an hour or two to kill? Want a place to sit and people watch and meet new friends? Want to see the behind the scenes work of a convention? Feel the need to lend a hand? Volunteers wants you!

Swing by the Portland room
between 7am and 10pm to join us!

On top of the amazing feeling of helping out, we also offer free swag to the volunteers on the last day of con. The swag comes straight from the vendors' tables and includes lots of wonderful items that are donated just to reward the volunteers. Those who volunteer the most hours pick an item first and then so on down the line. So the more hours you volunteer, the higher chance of picking your swag first!

Westercon 71 Site Selection Schedule

Voting Location: The site selection ballots and ballot box will be open in the Fan Tables area (*Ballroom Lobby*).

Fannish Inquisition: Friday at 2pm in Roosevelt.

On-Site Voting: Friday 1pm-2pm; 3pm-5pm (*voting will be closed during the Fannish Inquisition*). Saturday 11am-6pm.

Ballot Count: Saturday 6pm to however long it takes. The winner will be announced in the Sunday newsletter.

GEARCON 2016

A Cog in the Machine

GEAR Con is the Gaslamp-Fantastic Explorers, Adventurers, & Romantics Convention, Portland's annual festival of steampunk art & culture. Befitting our status as part & parcel of Westercon 69, this year's theme, "A Cog in the Machine", explores steampunk's role in the wider world of science fantasy. You will find traditional GEAR Con programming like writing workshops, the Pro Steampunks Dogpile mass-panel, and the Steampunk Scrapheap Challenge mixed-media art contest will be hosted throughout Westercon as well as concentrated in the following locations:

The GEAR Con Salon [Weidler]

Our themed salon in the Weidler Room is GEAR Con's principal dedicated space for panels and discussions. When in doubt, check in here for your hourly dose of retro-futurist neo-Victoriana, and for happenings key to our weekend-long, convention-wide Steampunk Mystery Game.

The Power Station [Three Sisters]

Ever wonder what you can do with 350,000 Volts? Westercon69/GEAR Con 2016 is pleased to present mad scientist emeritus Don Anderson and the amazing Tesla Coil, an Extreme High Voltage Demo unlike anything you've ever seen before! Physicist, safety consultant, educator and imagineer of exotic high voltage devices for over 30 years, Anderson takes you to the dawn of the electrical age with an interactive museum of early generators and an overview of the life and creations of Nikola Tesla--inventor, immigrant, quixotic genius and rival to industrialist Thomas Edison--in lectures styled after the learned societies of the Gilded Age. The centerpiece of this presentation will be a working replica of Tesla's signature device and a guided tour of its breathtaking coronal displays and three foot electrical arcs!

Victorian Martial Arts Symposium IV [Mt. Hood/Mt. Bachelor]

Academia Duellatoria (duellatoria.com) and GEAR Con 2016 present Portland's annual Victorian combative intensive. Instructors from Academia Duellatoria offer classes in bartitsu, English pugilism, cane & umbrella, and suffragists' self-defense. In honor of

Westercon 69's expanded scope, they will also offer a variety of classes on Medieval and Renaissance weapons as well as Academia Duelatoria's sister program Swords For Scribes-writers' workshops on penning fight scenes based on these martial systems. Explore more information at Swords For Scribes (www.swordsforscribes.com).

Ballroom Entertainments [Mul/Hol]

After Friday evening's opening ceremony, GEAR Con's perennial favorite variety performers take the main stage followed that same night by Vanity's Vaudeville Vixens [18+], GEAR Con's annual burlesque revue produced by Vanity Thorn! The climax of our convention is Sunday night's Cabaret of Curiosities concert and ball demonstrating the thematic breadth of steampunk music. Open dance floor after the show both nights!

GEAR Con's Tea Parlour [1455]

Drop in anytime noon-6pm Saturday & Sunday for casual tea and company! See our sign-up sheets in the room to make a reservation for high tea on the hour (up to four seats), and see our schedule & leaderboard for TEA DUELING, where nobody gets hurt and everyone gets biscuits (see teaduel.yolasite.com).

Steampunk Mystery Game

WANTED: Citizens stout of heart possessing an inquisitive spirit needed for a perilous investigation. Cunning and creativity required to bring dastardly villains to justice. Successful citizens will be rewarded with honor and renown throughout the Empire!

SELLWOOD Makeup Tips and Techniques

Applying makeup to make your character come to life is very different from everyday makeup. Learn about the tools and techniques the experts use to keep full-face paint from smearing or streaking. Learn tips and tricks for applying elf-ears, Klingon forehead ridges, and zombie scars. *Amber Clark, Theresa Halbert, Jess Langdell*

FRI 12:00PM - FRI 1:00PM

HAWTHORNE Creating Tactile, 3D Fantasy Environments

Walk through the art show and imagine yourself in some of these worlds, able to interact with the beings pictured: feeling, touching, experiencing. Programmable matter may give future artists the ability to do this. But as you look at the existing 2D art shows, maybe there should be some limits? *Sean Robinson, John Lovett*

SELLWOOD Crafted into a Corner!

Every costumer/maker has that moment when they have seemingly ruined their project. Come discuss with people who've been there how to recover and avoid some common (and sometimes uncommon) mistakes. *Janet Borkowski, Sandra King, *Chin Chin, Laura Sinclair McShane*

WASHINGTON Second Skin: Finding the Perfect Face for Your Cosplay

Makeup and prosthetics tips and hands-on demos by regional cosplay deities, Joy and Loz! **Jess Knight, Joy Knight-Richards, Jess Langdell*

FRI 12:00PM - FRI 1:00PM

WEIDLER The Mechanical Shutter

The advent of the mechanical shutter mechanism and how it changed the development of the modern camera. The mechanical shutter, with its spring-loaded leaf blades, allowed film makers to create faster film, and so made it possible to capture moving subjects in photography. I will bring several examples of early shutters and go over function, as well as how they were manufactured and serviced. **Steven Criss*

BROADWAY Exploring Intersections between Games & Science Fiction: A Game Lab Panel

What functions and roles might games take on in future societies? What does humanity's history with games suggest about future contexts of use? How are cultural values expressed through games and how can we leverage this type of expression in making our literary visions of the future feel real? What are some emergent technologies ripe for application to games? What defines the border between games and reality and how may that become complicated within the context of new technologies?

FRI 1:00PM - FRI 2:00PM

ROSS ISLAND Conventions of the Pacific Northwest

Where do you go when you're not going to your local convention? Come find out the wide range of geekalicious events the Pacific Northwest has to offer. *Gene Armstrong, Gibbitt Rhys-Jones, Gregory Gadow, Karen Anderson*

SELLWOOD Core Sewing Skills: The Next Set

Adopt the next set of essential, everyday sewing skills, including marking and stitching darts, aligning intersecting seams, matching plaids, and constructing enclosed seams (waistbands, collars, etc.), which can become second nature to you as you build your costume wardrobe. *Theresa Halbert, Rebecca Ernst, *Andrea Letourneau, Chin Chin*

WASHINGTON Coloring Titanium with Electricity

Titanium is a strong and light metal that is excellent for armor and high strength costume components. It's also easy to apply a range of brilliant and durable colors with only a little electricity and household materials. We will show you how. *Kenneth Lett*

WEIDLER sTEAmpunk!

An informational session about tea. Don't know the difference between black tea or green? Loose leaf or teabag? Sit back and enjoy an informational discussion about tea! *Angela Hardy*

FRI 2:00PM - FRI 3:00PM

BROADWAY Here There Be Dragaroos!

Do you want your very own dragon with a pouch? We are already creating one-celled animals that never before existed. Why stop there? People are talking about "mamaphants" for instance. And, of course, there are Beefalo. We're only going to get better at this. Could it become an art form? Look at dog, cat, and bird breeding and imagine it cubed and squared. What about plants that grow on Mars? Will artificial species someday outnumber evolved species? Is this a case where some people's utopia will be other people's nightmare? *Sharon Joss, G. David Nordley, L. Pierce Ludke*

HAWTHORNE New Horizons

Roy Torley will present pictures of Pluto taken during the New Horizons spacecraft flyby. Mega-icebergs of water ice might be floating in seas of nitrogen. Pluto's moon, Charon, might have experienced colossal upheavals in the past, creating huge faults and canyons. These pictures and more suggest that Pluto is geologically active, even though it is located at the fringes of our solar system. *Roy Torley*

ROSS ISLAND 3D Gun Printing: When You Can Print Your Own, How Do You Regulate It?

A 3D printer has recently been demonstrated to create a workable plastic gun. While primitive, the way has been shown forward. What are the implications for society? Could they ever be controlled?

**Andrew Nisbet, William Hertling, Sean Robinson, Autodidactic polymath*

SELLWOOD Costuming with Unconventional Fabrics

Many of us shy away from making fabulous costumes because of the finishing and tailoring required. There are many ways to make a costume look "authentic" that are achievable with today's fabric offerings. This panel would explore easy-to-use fabrics and sewing short cuts that costumers at all levels can apply.

*Andrea Letourneau, Sandra King, *Theresa Halbert, Betty Bigelow*

WASHINGTON Bustle Hustle: How to Make a Quick Last-Minute Bustle with Flair & Style

Bring your own fabric, ribbon, needle, and thread to follow along with a mini demo. Presented by Joy Knight-Richards.

3 SISTERS Tesla Coil Demonstrations

Visit the Power Station laboratory to see Dr. Professor Anderson describe and demonstrate 19th-century Exceptionally High Voltage apparatus. These will include the spark gap and the vacuum tube Tesla Coils with arc lengths up to 3 feet (500,000volts), Van de Graaff generator (750,000 volts, 2 foot sparks), Wimshurst machine (90,000 volts), Induction Coil (120 ,000 volts) and a 4 foot tall Jacob's Ladder. His large 1 Million Volt Tesla Coil with 7 foot long arcs will be on display, but not operated because it tends to suck dry the hotel electrical power system, and it does not play well with other electronic devices. In an abundance of caution, people with implanted medical electronics should not attend these demos due to the strong electric and magnetic fields generated by these apparatus

BACH/HOOD LARP: Dystopia Rising

Dystopia Rising is set in a post-apocalyptic world where humankind is gone, replaced by mutated strains of survivors that bear only a resemblance to what we are today. These vestiges of humanity live in a world where the dead walk, bands of raiders prowl the countryside, and a ramshackle settlement might represent the height of civilization for hundreds of miles. It is a zombie horror film brought to life. When you play, you will be taking on the role of one of the mutated strains of humanity, striving to make it in the harsh wastes of the remaining world. You will gather resources, fight, create and make the choice . . . are you here to help? Or just looking out for yourself? You decide. But either way, you have to survive. Do you have what it takes?

3 SISTERS Nikola Tesla and the Tesla Coil
Nikola Tesla was one of the greatest geniuses of the 19th century, inventing the AC motor, radio, and our present electrical power system. We will discuss his life, and his inventions up thru 1905. He invented the Tesla Coil in 1890 to generate Extremely High Voltage power that he planned to send wirelessly around the world. A 500,000 volt Tesla Coil that generates spectacular 3 foot long arcs will be used in various experiments, along with a 100,000 volt Induction Coil, a Jacobs Ladder, and other high voltage devices. People with implanted medical electronics should not attend these demos due to the strong Electric and Magnetic fields generated by these apparatus.

HAWTHORNE Laser Weapons: Reality or Myth?
Where are those laser weapons? They work nicely
in science fiction, but why don't we hear about
them on the modern battlefield? And do the science
fiction writers even get it right? We'll learn a little
about lasers, their history, how they're made, and
why they sometimes catastrophically self-destruct,
very much like a bad launch at Cape Canaveral.
We'll also learn how to build a laser; it's not as diffi-
cult as one might think. And no equations.

WEIDLER The Coincidence Rangefinder

The use of this style of rangefinder in the development of the modern camera. Originally developed for use in combat, the coincidence rangefinder can be scaled down, from the largest 15 meter length tubes used on naval warships, to the smaller 2.5” size that would conveniently work on the top of a 35mm camera. I will bring in several small add-on camera rangefinders and go over their use with film cameras.

HAWTHORNE The Search for Water on Mars

Ancient floods on Mars left their marks deeply etched into the planet's surface. Canyons bigger than the Grand Canyon, dry riverbeds, deltas, and huge sandbars suggest to us that Mars had a lot of water and that it flowed with a vengeance. We see something amazingly similar in southeastern Washington, in the Channeled Scablands. HAWTHORNE Xenoarchaeology in SF

Xenoarchaeology, a field of hypothetical science concerned with the physical remains of extraterrestrial civilizations, can be traced back to the Giovanni Schiaparelli's 1877 observation of channels on Mars. Xenoarchaeological themes are common in science fiction. Examples of xenoarchaeological fiction include Arthur C. Clarke's novel *Rendezvous with Rama* and 2001: A Space Odyssey, Frederick Pohl's *Gateway*, and *The Engines of God* by Jack McDewitt. Come and discuss this popular subgenre. ROSS ISLAND SF and Slavery

It is more than 150 years since the Emancipation Proclamation. SF gives more attention to the issue of slavery than most fiction does; Heinlein alone wrote 3 books focusing on it. Butler's *Kindred*, Asaro's *Ruby/Eube* novels, Mitchell's *Cloud Atlas*, a lot of fantasy novels and (lightly disguised) many robot and android stories . . . Why do our genres consider this an important contemporary topic, when so much of our culture is in denial of both slavery's impact on who we are now, and its continued existence around the world? How does SF&F overcome that denial?

HAWTHORNE How Much Math Is Really Necessary?

We all have calculators. How much math is it really necessary to know in the 21st century - for students, for scientists, for blue collar workers, and for the average citizen? And what are the dangers of math illiteracy?

Roy Torley, Guy Letourneau, Manny Frishberg, Jordan Kare, Sarah Gulde

SAT 8:00PM - SAT 9:00PM

PNW BALL **Theme Circle: Space Songs**

A theme circle is like any other filk circle, but with all songs on a certain theme. For the Space Songs theme circle, all songs with a space theme are welcome. Serious, humorous, factual, and/or fictional songs encouraged.

LINCOLN **Romance in Young Adult Novels**

From childhood crushes to more serious relationships, how do we know what's appropriate to include in a young adult novel? Did the Twilight series go too far? Are other series too "tame" and therefore not relevant to young adults? With such a wide range of ages reading YA, how does a parent determine what is appropriate for their child? Come join the discussion about this diverse genre and the "growing pains" of "growing up".

Nina Kiriki Hoffman, Blythe Ayne, Esther Jones, Jennifer Willis

ROSS ISLAND **Flirting 102**

You've had Flirting 101, you've done the homework, and you're ready for advanced topics. We will go there. LGBTQ, poly, aliens - we'll discuss all sorts of first contact issues. (Didn't go to 101? Didn't do the homework? That's okay! You're welcome to join us.) Workshop graduates get a nifty signed certificate, bragging rights, and the admiration of their peers.

The North American Science Fiction Convention (NASFIC) is held in years when the World Science Fiction Convention is held outside of North America. Because the 2017 Worldcon will be held in Helsinki, there will also be a NASFIC that year. The site for the 2017 NASFIC will be selected by a vote of the members of the 2016 Worldcon, MidAmeriCon II.

"World Science Fiction Society", "WSFS", "World Science Fiction Convention", "Worldcon", "NASFIC", "Hugo Award", the Hugo Award Logo, and the distinctive design of the Hugo Award Rocket are service marks of the World Science Fiction Society, an unincorporated literary society.

ROSS ISLAND SF as a Stealth Delivery Platform

Everybody knows that science fiction has inspired legions of young people to grow up and become scientists; half of NASA was weaned on Star Trek. But does SF's influence with these people end with their choice of career? Might science fiction actually serve as a legitimate means of transmitting scientific ideas between working scientists in different disciplines? Might it, in certain circumstances, be more effective than the usual technical publications?

Sunni Brock, James Glass, Liz Argall, John Scalzi

HAWTHORNE **The Amish Approach to Changing Technology: The Error of Presumed Neutrality of Technology**

The Amish do use technology, but they reject the idea that technologies are value-free tools, and they acknowledge that they can change social order, so all technology must be evaluated before being allowed into the community. Would we be wise to adopt this cautious approach?

Sara Stamey, Ari Goldstein, Guy Letourneau

LINCOLN **Suborbital Tourism**

What's the status of suborbital tourism going into 2016? Will SpaceX get in the game? Blue Origin seem likely to emerge from its quiet zone soon. What are the trades between vertical and horizontal launch. Will next year, finally, be the year paying customers fly?
Samuel Coniglio, Dave Davis, Dan Dubrick, G. David Nordley

Abbie Normal

ROOSEVELT **Successfully Writing About Horrible Things**

If you're not writing horror but your plot calls for something horrific to happen to a character, how do you handle it? You might go overboard and be detailed to the point of undermining or derailing the narrative, or might be so vague that the horrific event has little effect on the reader or the story. A reader who's been through a similar experience might be offended or distressed by a description of awfulness that's lurid, gratuitous, clichéd, or bland. What strategies can writers use to help readers empathize with the characters' suffering and build stories that respectfully handle the consequences of terrible events, without falling into these traps?

Manny Frishberg, Maya Kaathryn Bohnhoff, David Boop, Andrew P Mayer

ROSS ISLAND **Has Star Trek Left Us With an Enduring Mythology?**

Star Trek has been the most visible brand in SF since the 1960's. It has introduced concepts and vocabulary into society in a way that no other aspect of SF has ever done. Will that influence eventually fade away or will Star Trek always be with us?

Langley Hyde, Mike Chinakos, Sunni Brock, Patrick Swenson

SUNDAY PROGRAMMING

SUN 12:00PM - SUN 1:00PM

WASHINGTON Black Cinderella and the New Jim Crow: Media Representation in Post-Racial America

No matter whether it is consumed via broadband or broadcast, billboard or bus shelter, it is nearly impossible to ignore the constant stream of media imagery bombarding us all each day. Messages of hope, of despair, of commerce and compassion; it is easy to take this input at face value, to accept the image as presented as well as the assumptions that come with it. This panel is about challenging those assumptions, in particular as they relate to fiction and popular media. Key topics will include race as a distraction from character default white and the proliferation of race blindness. The focus will be primarily on visible demarcations of Otherness during this discussion (race as a major talking point given our current social climate, but also key examples touching on gender, size, and mobility). This topic touches on a lot of sensitive points for many, many people, so expect open minds, tolerant hearts, and strong moderation.

**Roget Ratchford, Elizabeth Adams, Emily Jiang*

ROSS ISLAND Neologism and Linguicide: How the Dominant Language Mutates and Assimilates Other Languages

Why is the loss of language so important? Per Anthropologist Wade Davis it's the canary in the coal mine, a concrete and extremely disturbing indicator of what is happening to cultures in general. And, of course, a language is not merely a body of vocabulary or a set of grammatical rules. It is a flash of the human spirit, the means by which the soul of each particular culture reaches into the material world. Every language is an old growth forest of the mind, a watershed of thought, an entire ecosystem of spiritual possibilities. It's haunting to realize that half of the languages of the world are teetering on the brink of extinction. Just think about it. What could be more lonely than to be enveloped in silence, to be the last of your people to speak your native tongue, to have no way to pass on the wisdom of the elders, to anticipate the promise of the children.

LINCOLN **Zombies, Vampires, and Capitalism**

If the modern vampire may have functioned as an apt metaphor for the predatory practices of capital in colonial and post-colonial societies, today's zombie hordes may best express our anxieties about capitalism's apparently inevitable byproducts: the legions of mindless, soulless consumers who sustain its endless production, and the masses of "human debris" who are left to survive the ravages of its poisoned waste. How apt are these analogies? Are there other ways to link our modern capitalist practices to the creatures of horror and fantasy? And if capitalism is a horror story, do other economic philosophies offer more hope of a happy ending?

3 SISTERS Tesla Coil Demonstrations

Visit the Power Station laboratory to see Dr. Professor Anderson describe and demonstrate 19th-century Exceptionally High Voltage apparatus. These will include the spark gap and the vacuum tube Tesla Coils with arc lengths up to 3 feet (500,000volts), Van de Graaff generator (750,000 volts, 2 foot sparks), Wimshurst machine (90,000 volts), Induction Coil (120 ,000 volts) and a 4 foot tall Jacob's Ladder. His large 1 Million Volt Tesla Coil with 7 foot long arcs will be on display, but not operated because it tends to suck dry the hotel electrical power system, and it does not play well with other electronic devices. In an abundance of caution, people with implanted medical electronics should not attend these demos due to the strong electric and magnetic fields generated by these apparatus.

BACH/HOOD LARP: Graveyard - Sunday

LARP coordinator for Dying Light LARP. Dying Light is a fantasy/sci-fi/post apocalyptic boffer LARP running in the Portland, Oregon area. The game takes place in a plane called "The Nexus". Players create a character and assume the persona of that character through which they interact with others players in a world of magic, technology, hidden wonders, fearsome truths and disturbing secrets. Players use Nerf guns and boffer weapons to enact a freeform theatrical style of combat.

3 SISTERS Tesla Coil Demonstrations

Visit the Power Station laboratory to see Dr. Professor Anderson describe and demonstrate 19th-century Exceptionally High Voltage apparatus. These will include the spark gap and the vacuum tube Tesla Coils with arc lengths up to 3 feet (500,000volts), Van de Graaff generator (750,000 volts, 2 foot sparks), Wimshurst machine (90,000 volts), Induction Coil (120 ,000 volts) and a 4 foot tall Jacob's Ladder. His large 1 Million Volt Tesla Coil with 7 foot long arcs will be on display, but not operated because it tends to suck dry the hotel electrical power system, and it does not play well with other electronic devices. In an abundance of caution, people with implanted medical electronics should not attend these demos due to the strong electric and magnetic fields generated by these apparatus.

HAWTHORNE Space Travel and Religion

Astronauts and cosmonauts have observed their religions while in space, both publicly and privately. Muslims aboard the International Space Station have struggled with fulfilling their religious duties including kneeling and facing Mecca to pray in microgravity while traveling at thousands of miles per hour. As more people travel into space the practical concerns of practicing Earth-bound religions will become more evident. How will people living on other worlds have to adjust where the days and years are different? How will the religious faiths of future space settlers change as more and more people take up a permanent presence on places like the Moon and Mars?

Convention Policies

Westercon 69 and Oregon Science Fiction Conventions, Inc. (OSFCI) Code of Conduct

OSFCI does not tolerate discrimination or harassment of any kind, including but not limited to physical assault, battery, deliberate intimidation, stalking or unwelcome physical contact. This policy applies to your interactions with fellow con-goers, program participants, hotel employees, and guests of the hotel.

Be respectful of and courteous towards others. If you have graduated from kindergarten, we expect you to understand that you need to ask before you touch and that “no” means “no”. If someone tells you “no” or “go away”, your business with them is done.

Violation of this policy may result in action by the con committee ranging from warnings to having your badge revoked with no refund, and the decision of the event chair is final. Action by the convention in no way precludes the injured individual or the hotel from pursuing whatever remedies, civil or criminal, they see fit.

After the event, OSFCI may take further action, including banning you from further events.

Please note that other behaviors, including

but not limited to destruction of hotel property, can also result in the actions described above.

A copy of the procedures for enforcement of this code are available on the OSFCI web site at <http://osfci.org/code.html>.

If you feel have been harassed, please find the nearest Westercon 69 volunteer, identifiable by a maroon badge ribbon with gold and silver lettering. Alternately, please contact the Information Desk in the lobby, the Office staff in the Halsey room during operating hours, or call 503-877-3431. The convention officer on duty will help you. Note that falsely reporting harassing behavior is in itself a harassing behavior under this code of conduct.

Child Policy

All children must be registered with the convention and all children purchasing memberships must be accompanied by an adult.

Children ages 5 and under are admitted to the convention without charge and will be issued a badge that must be kept with the child (or a nearby diaper bag, for example) rather than with one of the parents. The child must be under the supervision of an adult at all times.

Children ages 6-12 are admitted at half the

adult price and may operate independently as long as they cause no problems. Those not capable of operating responsibly on their own must be kept under adult supervision.

All children 12 or under must be under direct adult supervision after 8 PM. Children 8 and over may work as convention volunteers, but those ages 8-11 may do so for no more than 4 hours per day. Those ages 12-16 may do so for no more than 6 hours per day.

Masks Policy

The hotel requires that no facial masks be worn in the lobby area, hallways and other public areas for security reasons. Masks are allowed in the Masquerade and the Masquerade Green Room. In addition, people wearing full face paint will not be served alcohol in the restaurant or bar. (They have to be able to tell whether you and your ID match.) For everyone's comfort, please keep these rules in mind.

Weapons Policy

The wearing and carrying of weapons will not be permitted, except as part of a Masquerade contestant's costume, or as part of

other designated events, and then only during the event, or in transit to and from the event.

The use of a weapon as part of the Masquerade must be approved by the Masquerade Director prior to the event. Failure to comply is grounds for immediate expulsion from the convention.

The Westercon 69 Committee defines as weapons any object designed to cause bodily harm, or any replica of such an object and any other object the Committee determines to be dangerous. However, the Committee reserves the right to amend this definition of a weapon, and the right to impound weapons for the duration of the convention.

Any weapons purchased in the Dealer's Room must be securely wrapped and transported promptly to your vehicle or room.

The Committee realizes that most people who would like to carry and wear weapons are sensible and careful individuals. However, the safety of convention members has to be our overriding consideration. Because of present liability laws, the risk of weapons causing accident or distress, and to preserve relationships with convention hotels, we have adopted this policy.

Westercon 69 Smoking and Vaping Policy

By Hilton policy, smoking and vaping are prohibited in all DoubleTree properties, including but not limited to sleeping rooms, meeting areas, and the restaurant and bar. They are also prohibited outside in most areas close to the hotel entrances and air intakes.

You can smoke or vape tobacco products outside the ballroom entrance if you remain more than 25 feet from the doorway. The park across the street is available until it closes at midnight. Please remember there is no smoking at the TriMet station either.

Note: As of July 1, 2015, personal use of marijuana (for individuals 21 and over) is officially legal in Oregon. Smoking or consuming marijuana in public places remains prohibited. State law defines public spaces as hallways and lobbies of apartment buildings and hotels, on the street, in schools, amusement parks, and public parks. Public marijuana consumption is illegal even if you are using a discreet device like a vape pen. Visit [What's Legal Oregon](#) for more information about recreational marijuana use in Oregon.

Party Policy

What is a party? Any event held in hotel space where: fliers are posted; public invitations are given out (verbally or written); if Convention Committee or Hotel Security deems it to be a party.

Rules: A member of Westercon 69 must register the party with the Westercon 69 Party Coordinator. This person will be responsible to see that the rest of the rules are followed in their party.

The responsible individual must not be under the influence of alcohol or intoxicants for the duration of the party. A contact list for the individuals responsible for each party must be given to the Westercon 69 Party Coordinator prior to the event.

If alcoholic drinks are served ALL members must show valid identification.

The responsible individual must attend their party during party hours, or if needed, leave someone connected with them in charge with a way to be contacted if they are required to be somewhere else.

No alcoholic drinks in other hotel or convention space. All alcohol must remain in the party room.

Comply with all hotel rules and Oregon

state law. If you do something that gains the attention of the hotel (noise complaints, smoking, etc.) then the person or persons responsible for the room and party are responsible for any fines or legal problems that may arise.

Photo Policy

By entering the Westercon 69 convention space, members consent to video and/or audio recording by both Westercon 69 staff and other event attendees. Visual recording includes both photography and videography.

Some convention spaces or events will prohibit or restrict visual and/or audio recording; signs will be posted indicating such restrictions.

For the purpose of visual recording, Westercon 69 event spaces are not public. Attendees may ask photographers and videographers to not be specifically recorded; however, unintentional or non-specific recording is likely due to the nature of the convention while in convention space. People have a reasonable expectation of privacy and the right to control visual and audio recording in their hotel rooms.

When stopping for photography in a hallway, please be brief, and do not block the flow of hallway traffic. Be aware that a flash or other light source may interfere with convention activities.

Signage Policy

Westercon 69 staff and attendees may only put up signage with blue painters tape in the following approved areas (tape MUST be on the backside of signage and not visible): inside Westercon 69 space (in panel rooms and ballrooms); on easels provided for signage; on panel room doors when printed on the official template; the walls of the elevator landings on the 14th and 15th floors; flyers may also be posted on the Westercon 69-provided easels or signposts (check at the Info Desk for locations).

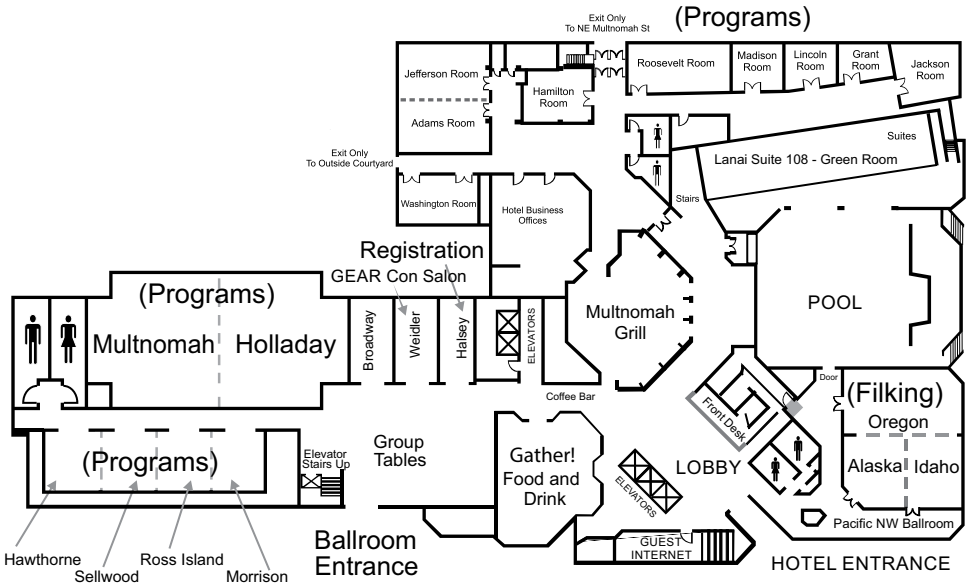

Flyers need to be printed per the hotel provided template. A copy of the template will be available in the Westercon 69 Office, and on the Westercon 69 website.

Do not post signs in the following areas: elevators; lobby; restaurants; coffee bar; hotel public restrooms; any entry/exit door to the hotel.

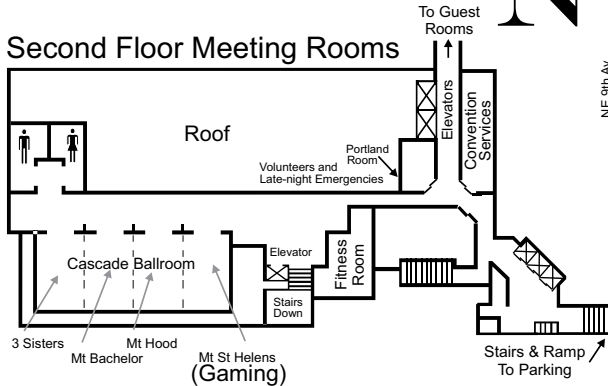

Signs posted in disallowed places will be removed.

Have a question?

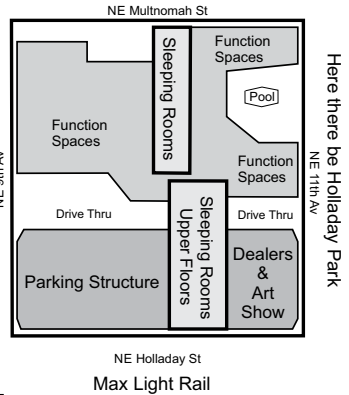

Visit the Info Desk (located in the hotel lobby, across from the coffee bar) or ask anyone wearing a maroon ribbon with gold lettering (ConCom ribbon).
