

# The 40th Japan SF convention report

Date: August 18-19, 2001 / At: Makuhari Messe / Warm body Counts: 3600

The site, "Makuhari Messe" is a convention center in Chiba Prefecture. Since it near Tokyo and equipments are ready, it is usually used for various business events, such as the Tokyo Motor Show and P.C. World EXPO.

As a special feature of this convention, having paved not only conference rooms but the exhibition hall with "tatami", and used it for programs other than exhibition and dealer's room. Since 24-hour use was possible for the exhibition space, various programs run all night long. With day time only conference rooms, more than 150 programs were held. Dealer's room was also open for 24 hours,

more than 80 dealers and fanzines were kept.

The chairperson of a Japanese fan group union meeting strove for the chairman of first

SF convention in the 21st century, and contents of the programs are conspicuous such as, SF which will see the history of the past 40 times of conventions and the 21st century.

There were steady panels of all ages writers, as well as Japanese writers, for overseas writers from Asimov, Heinlein to Greg Bear, program about gender SF which has become the center of attention recently in Japanese fandom, showing recent works videos for promotion, and etc. Moreover, programs about fantasy by the fan group of the fantasy which celebrated 20th anniversary at this year, took the lead was also substantial, and many participants were assembled for whether a fantasy is becoming a boom by movies of "Harry Potter" and "The Lord of the Rings".

This convention that became dipped in SF more than 30 hours was ended by climax suitable as the first page of the new century.

Preparations in the Exhibition Hall  
Right front, you can see Editorial office of "Timely Times" with yellow T-shirts personnel, "Kids-Con" Floor and Screen for Film Promotion. Left front to back, con's tea-room, dealers table, and artshow.

Preparations in the Exhibition Hall

# Welcome to YOKOHAMA!

Now we are introducing our site for Nippon2007 Worldcon Bid.  
**PACIFICO YOKOHAMA!**

## Welcome to YOKOHAMA!

Now we are introducing our site for Nippon2007 Worldcon Bid.  
PACIFICO YOKOHAMA!

Yokohama is a second neighbour city from Tokyo, and the biggest City in Japan, as Tokyo is not treated an one "city". Yokohama has a long history of welcoming foreign people and has a nice Convention Complex, the Pacifico Yokohama. So, we are going to make initial signing with Pacifico, which we are sure is the best choice.

There are so many merits.

### 1) Twice, we have had the SF Cons in PACIFICO.

We had held the Japan National SF Conventions twice in Pacifico Yokohama, in 1992 (Hamacon, 2300 attendance) and in 2000 (Zerocon). Japanese SF fans and staffs know the Pacifico and at the same time, Pacifico also knows what is SF convention. Isn't it quite important? Yokohama has sister port relationships with the 2 ports of the other side of the Pacific Ocean, San Francisco and San Diego. So, Pacifico is in cooperation with the Moscone Center which was the site for the Con Francisco in 1993, thus Pacifico is expecting to be selected as the site for the Worldcon. Yokohama Convention & Visitors Bureau (YCVB) supports us for the Bid. And YCVB offers various services to tourists and conventions held in Yokohama.

### 2) Well equipped Facility and well balanced Complex,

Suitable for SF Cons, especially for Worldcon. PACIFICO is consisted of The National Convention Hall (3260-5002 seats), the Conference Center, Exhibition Hall (20,000m2), Annex Hall and the Yokohama Grand Intercontinental Hotel, which is famous for its symbolic shape of a sail on a yacht. With 60 rooms available in a variety of size (from 20-1400), with its variety of room layout, we can expect high flexibility in programming and in making timetables. Besides the conference rooms, the Conference Center has 2 smaller halls (1002 seats, 394 seats). Both halls and 4 medium-sized meeting rooms (286-340seats) are equipped with simultaneous interpreting system, although it depends upon programs and costs if we should and if we can use simultaneous interpreting. (We do not think we can expect that professional interpreters are good at Sci-Fi words and terms!)

Nearby are there 2 luxurious hotels in the same grade as the Intercontinental Hotel, and 2 standard (needless to say, in Japanese Standard!) hotels in 10 minutes walk. 4 shopping malls, an amusement park, Yokohama Museum of Art, Mitsubishi Minato-mirai Industrial Museum, Yokohama Maritime Museum (and so on) can be reached by 5-10 minutes walk, too. And the view from the Japan's highest observatory (273m high) of the "Landmark tower" (296m high) is unforgettable. All of them are in the re-developed area, called "Minato Mirai 21".

### 3) Convenient Access

Direct from Narita International Airport is available. Yokohama has convenient access from New Tokyo Int'l Airport (Narita) by Train and by Limo. JR East has 17 Express and 16 Local Rapid from Narita Airport to Yokohama station. From Yokohama Station, new subway under construction (by 2004) will bring you just underground of Pacifico. Limousine Bus is available, too. There is 6 direct service from Narita to Pacifico, and over 30 services to Yokohama City Air Terminal near Yokohama railway station. Changing the line, taking different service is a tough job in a foreign country, so we attach more importance to transport than the distance. As Yokohama is one of a hub of railroads near Tokyo, and not so far from Tokyo (Haneda) Airport, domestic travel is easy, too. To the central Tokyo, we need approx. 30 minutes of train ride, but it can't be inconvenient.

### 4) Fascinating for Tourists

Yokohama is one of the most internationalized city in Japan. As one of the first port opened to the world in the Edo Era, Yokohama has a long history of hospitality to the foreign visitors.

There are many old buildings in Western style built since the opening of the port. They are the monuments for the modernization and industrialization of Japan.

Yokohama has the world biggest China Town, where you can experience original Chinese cuisine. Besides, there is a Museum called Shinyokohama Raumen Museum, where you will be surprised at the difference between American Chinese and Japanese Chinese. Not only Chinese, but there are many restaurants of foreign cuisine (original taste), like Indian, Italian, French, Greek, Vietnamese and so on. Needless to say, you will be able to enjoy uncountable varieties (in taste, style, price) of Japanese Foods and Japanized western Foods.

If you are interested in Histories of Japan or something Old, how about to make a excursion by taking about 30 min. train ride to Kamakura? Kamakura is one of the most popular location for foreign tourists with its historical buildings and famous Buddhist statue from Medieval ages.

Yokohama is well known by the U.S. Forces people, because 2 big bases are near Yokohama, Yokosuka Naval Base, the largest overseas U.S. Naval installation of the World, and Naval Air Facility Atsugi.

### 5) In Comparison with other convention centers in Japan

We have been considering and negotiating with several potential location. The Japan Convention Center in Makuhari or Tokyo Big Sight? Both are the most modern and largest convention centers nearby Tokyo. But both have a common weakpoint, that is, they do not have enough rooms for panels and seminars of SF-Cons, as they are mainly targeting big Business Exhibitions and Trade Shows. Both do not have a Hall in theater style.

We have also checked other possibility. For example, Shinagawa Prince Hotel Complex, which declined According to the business magazines' story, this Hotel is the most profitable in Japan, so we guess it's the reason. We also dreamed to have our (possible) Worldcon in Ryokans, Japanese style Hotels, but we can't be sure that it will be accepted by the Attending Members from Abroad. With bare foot on tatami mat, all members having dinner at the same time, and relaxing in hot spring, will be fascinating, but not for all of the attendants.

In Kansai (Kyoto, Kobe, Osaka) and in Nagoya, there may be another good convention facility, but it is impracticable as most of the Nippon 2007's active members are living in Kanto area (near Tokyo).

**YOKOHAMA is waiting for YOU. Get together in 2007!**

## NPO (特定非営利活動法人) 法人格取得!

私たちの委員会はこの夏、法人格を取得しました。かねてより本拠地のある東京都に申請していたものが、審査を通過し認定されたのです。私たちのような文化的活動をする団体がNPOになることは、日本では珍しい事です。でも日本でワールドコンを開くには不可欠のものですから、どんなハードルを飛び越えてでも取得する必要があったのです。

私たちが法人になったことで、日本国内での各種契約も容易になると考えられます。これからも私たちは日本でワールドコンを開くためにあらゆる努力をしていきます。

## We've been legally registered as a Non-Profit Organization (NPO)!

We've been legally registered as a Non-Profit Organization (NPO)! It is with great pleasure that we announce the foundation of Nippon 2007 as a legal entity in Japan. We filed an application with the Tokyo Metropolitan Government this winter. The application was approved, so our group is now authorized as a legal body. It is very rare for cultural organizations to be so recognized in Japan, with the exception of well-established traditional groups.

Considering the various hurdles that lie before us, it was imperative to secure this registration. Becoming a legal entity will make it far easier for us to contract with the convention center and hotels, an indispensable factor in hosting the Worldcon in Japan. In addition, it may entitle us to government assistance in the name of promoting international friendship. We will continue our utmost efforts to prepare to host the Worldcon in Japan.
