## From the Sofa

I know I should want to Save My High Street. Hate to tell you this, guys, but the High Street I would use is long gone. Now we have a Co-op, a rancid drug-dealer pub, a Post Office, two takeaways, five bookies. Three cake and coffee shops, four nail and tanning salons, three sandwich shops, a surgery and a LIDL.

I wonder how much I've contributed to this. Bought a washing machine so no launderette. Worked and commuted so more takeaways and less "ingredients" shops, bye bye butchers and fishmongers. Wine at home rather than a swift half before closing meant no neighbourhood pub.

Bringing back that old high street needs a sea change in how we live. House-keepers who only shop in the daytime. People who had time, knowledge and equipment to cook. A world where you weren't trying to gamble your way out of debt or eat yourself happy.

The science fiction and fantasy that interests me most is where someone develops the unexpected results of even small changes. And I love conventions which continue that discussion, and extrapolate it further. A great convention shows some of those changes in action. Or even identifies them. *Why did* people start knitting again? What have we learned about how people will use Twitter?

With EightSquared and Satellite 4 we've got two new groups of people, making deliberate and inadvertent changes to Eastercon. When I retire from con-running next year, I'm really looking forward to watching what happens next.

Fran

# Satellite 4 /sætələʒt fɔː/ (disambiguation)

**Satellite 4** is the 65th National British Science Fiction Convention.

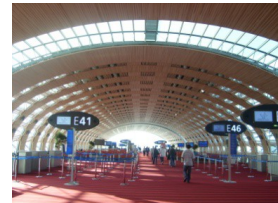

**Satellite 4** may also refer to:

- Satellite 4 departure lounge at Charles de Gaulle Airport.

*Opened June 28 2012 (so clearly took their name from our convention, launched April 2012)*

*It cost 580 M € (just slightly less than an average fan's bar bill).*

[http://corporate.airfrance.com/fileadmin/dossiers/documents/press\\_kits/press\\_kit\\_Committed\\_to\\_being\\_travellers\\_preferred\\_hub.pdf](http://corporate.airfrance.com/fileadmin/dossiers/documents/press_kits/press_kit_Committed_to_being_travellers_preferred_hub.pdf)

- Satellite 4, the US Navy's latest tactical satellite.

*Tested June 2012 (again, suspiciously after our launch, we think – and they even copied our mission patch!*

<http://navaltoday.com/2012/08/29/usa-tacsat-4-completes-testing-within-trident-warrior-experiment-2012/>

- The Satellite 4, a soul band boiled down to its essence.

*The line up is Jeff Conlin (keyboards), Johnny Horn (bass), Eric Daw (guitar) and David Hudson (drums).*

*Their latest album, Street Food, was released in February 2012 (clearly they got wind of our launch and wanted to squeeze an album out!)*

☞ This disambiguation page lists concepts associated with the same title.

- At least we aren't a make of Chinese lipstick!

*Though with a tagline like "one giant leap for makeup", it's obvious they've been looking at our predecessor con!*

# Introducing our Scientist Guest of Honour

## – Professor Dame Jocelyn Bell Burnell

Dame Jocelyn is a world-renowned British scientist and Visiting Professor of Astrophysics at the University of Oxford. She discovered radio pulsars whilst a postgraduate student at Cambridge in the 1960's, a finding for which her PhD advisor, Antony Hewish, later shared the Nobel Prize in Physics. She holds numerous awards and honorary degrees, is a Fellow of the Royal Society, and has served as president of the Institute of Physics. She was one of the scientists featured in the BBC4 Beautiful Minds series.

Originally from Belfast, Dame Jocelyn has strong Scottish connections – her BSc is from the University of Glasgow and she worked at the Royal Observatory in Edinburgh for several years. She is a champion for women in science, an innovative science communicator (for example using poetry to engage listeners with astronomy) and an active Quaker.

## Stamp Out Albatrosses!

OK – now that we have your attention we can admit that this should actually read 'Stamps *for* Albatrosses', our pre-con charity fundraiser. Many of you will remember the albatross as a badge motif for the well-loved Albacon conventions that took place in the 1980's. The RSPB are currently collecting stamps to help in their albatross preservation work. Satellite 4 has decided to pay tribute to these earlier Glasgow conventions and help protect these magnificent birds by saving all the stamps from con correspondence for this worthy cause.

We'd like you to help us collect stamps. Better still, encourage your friends, families and workmates to do the same (check our website for a poster you can print out). Please cut them out with no more than a few mm border, save them up in a safe place, and bring them to the convention. We hope to be able to fill a big sack, which we'll hand in to a local reserve.

For more details see:

<http://www.rspb.org.uk/supporting/campaigns/albatross/howyoucanhelp/stamps.aspx>

## Hotel Update

The Convention will take place in the Crowne Plaza Hotel, Congress Road, Glasgow G3 8QT. The hotel is situated about two miles from Glasgow City Centre and beside the Scottish Exhibition and Conference Centre. The hotel is familiar to SF fans, having hosted the 2006 Eastercon, Concussion, and was the principal hotel for both the 1995 Worldcon, Intersection, and the 2005 Worldcon, Interaction. In addition it was, of course, the hotel for Satellite 2 in 2009. For further information see <http://www.crowneplazaglasgow.co.uk>

Overflow accommodation is available at the Campanile and the Hilton Garden Inn – both across the car park from the Crowne Plaza – and the Marriott, which is just over a mile from the Crowne Plaza.

## Booking

We are pleased to announce there will be an online bedroom booking service managed by Glasgow City Marketing Bureau (<http://www.seeglasgow.com/>).

We intend to open room booking on 1st May 2013. An email will be sent to your registered email address with details, including a booking code.

After room booking opens you will also be able to obtain the code by following the My Membership link on our website. The email sent out will include the booking code along with the usual information.

If either of these options are an issue please contact us and we will send you a copy of the booking code/procedures by post (to arrive 1st May, Post Office willing!).

## Volunteer and Sign-Up Forms

Volunteer and sign-up forms are now available on our website (Contact Us section) for the following convention areas:

- **Art Show**
- **Dealers' Room**
- **Operations Volunteers**
- **Programme Volunteers**

These can be filled out on-line, or downloaded in PDF form to print, fill out, and post to us.

If you have any difficulty accessing these forms, please email us at:

## Convention T-Shirts

Con t-shirts are available for sale on our website (or by asking in person) at £16 for sizes Small to XXXL (suitable for almost all men), and £12 for Tiny (suitable for babies and soft toys). They can be collected in person, or posted anywhere in the UK for an additional £4 per t-shirt.

T-shirts are a single-sided print on black, with the main convention logo and details on the front, and a sleeve patch featuring our Mission Logo, the comet and stars.

## Programme

The success of an Eastercon depends hugely on the quality of its programme, and the quality of the programme depends on you – the membership – putting forward interesting and exciting ideas for programme items. Are you an expert on the Golden Age of Science Fiction, or the history of spaceflight, and willing to offer a talk on your specialist subject? Do you have a great idea for a panel discussion? Are you a burgeoning quizmaster? If so, please complete the programme volunteer form on the website.

Please also remember to start work on your convention costumes. As mentioned in PR1, Satellite 4 will feature 'The Ambassador's Ball'. You are invited to attend dressed as dignitaries and delegations from all races, cultures, planets and universes (real or fictional). Costumers will have the chance to be announced on arrival and to have their work judged by an expert panel. Short 'dramatic presentations' can be accommodated, by prior arrangement. We will also be having Hall Costume Day on Saturday. Finally, 2014 is the 40th anniversary of the movie 'Young Frankenstein' (doesn't time fly!). So we've decided that the theme for the Satellite 4 disco will be 'The Modern Prometheus'. We hope you'll get your brains working (including any A B Normal brains of course) on some really inventive costumes. Feel free to hark back to the original Mary Shelley novel, adapt something from the movie, or delve into the modern world of cloning and stem cell research. Imagination is your only limit!

Note that, throughout the convention, a strict weapons policy will be enforced. Side-arms must be peace-bonded at all times. Larger weapons may be displayed at certain times e.g. during formal presentation at the Ball, at the discretion of the Head of Operations (please e-mail us at [info@satellite4.org.uk](mailto:info@satellite4.org.uk) if you have any questions).

## Converting from Supporting

Last issue we introduced you to the **My Membership** page on our website, where you can get a special code to edit your membership details, and we're happy to see that some of you have made use of the facility.

We've now added a new feature, that lets Supporting members request and pay for their conversion to Attending. Once you've finished editing your membership, you'll be taken to the Join page, where you can arrange payment for your upgrade. Hopefully this feature will see some use soon!

## To Creche or Not to Creche

The committee are determined to make the Satellite 4 experience the best it can be for all attendees. However, organising a creche involves significant expenditure for the convention, and we need to assess whether it is financially and logistically feasible.

To this end, we ask all members who will be bringing children (aged under 12) to the convention to email us at [creche@satellite4.org.uk](mailto:creche@satellite4.org.uk), stating whether or not you would make use of such a facility if it were available, your children's ages, roughly how much you might use it (approximate hours per day), and how much you would be willing to contribute towards its running costs.
