Errata

In a late-breaking story, our sources report that Buzz Aldrin legally changed his name a few years ago (from Edwin to Buzz). We apologize for any inconvenience, and we promise to call him by his right and proper name – Mr. Aldrin. (For his “Ed”ification!)

NEWS

CopperCon 15 will be attended by Members of the Press today, due in great part to the presence and participation of Buzz Aldrin. Fen should not be surprised if news people with cameras are roaming about taking pictures. Having major-league media coverage is a Good Thing, and we are counting on everyone to be their natural fannish selves for this. (NOTE: please be in costume if you can.) Thanks!
