

# OUSFG - Oxford University Speculative Fiction Group

## Michaelmas Termcard 2000

Hi. You hopefully remember our stall from Freshers' Fair (it was the black and silver one with lots of SF books). This is to let you know a bit more about what we do.

[OUSFG](#) was founded in the 1960s by [Brian Aldiss](#), making us one of the first student run SF groups in the country. We cover the whole range of non-mainstream fiction, particularly science fiction, fantasy and horror, although we don't hold those categories rigidly defined. Being the only general SF group in Oxford University, we hold a broad range of meetings, and our interests cover books, film, TV and all other media.

[Below](#) you will find our termcard, with details of all the meetings we have planned for this term. As you can see, Wednesdays alternate between video and discussion meetings, with a speaker meeting in 8th Week. Video meetings are held in Magdalen JCR TV Room. To get there, follow the path right from Magdalen Lodge under an archway and into the quad with the cloisters. Go right, around the quad, until you reach the staircase on the opposite side (labelled JCR) and go up the stairs. Go through the double doors on the first floor and turn right into the TV room. If these doors are locked, please knock loudly.

China Miéville will be coming to speak to us on Wednesday of 8th Week (29th November). He is the author of [King Rat](#) and [Perdido Street Station](#). There's a nice [feature](#) on him at [DarkEcho](#).

The speaker meeting will be at 8pm in [St Hildas'](#) Lady Brodie Room. Directions are as follows. Go through the main gates of St Hildas, straight across the courtyard, and through the double doors to the JCR. Go up the stairs (the JCR is downstairs) and through the doors on the first floor. Then follow the passage straight ahead as far as you can go. The Lady Brodie Room is at the end.

Every Sunday is a [library](#) meeting, where you can browse through and borrow from our library of over 2000 books, or simply sit and chat. Library meetings and discussion meetings are also held in Magdalen, but to get there, you must turn left from the Lodge. Go under a medium-sized tower into St Swithuns' Quad and exit through the opposite corner. Turn left and then turn right towards the new block of buildings near the gate. Go under the archway, and you want the second door on the right, and the buzzer labelled "Niall".

At the Library Meeting on Sunday of 8th Week, we will be playing [Silly Games](#).

### Wednesday Meetings

Also, Saturday 7th Week (25th November) will be the OUSFG/[RPGSoc](#) Joint [Christmas Party](#). This will be from 18:30-22:30 in [Teddy Hall](#). Contact Tom Anderson (at a meeting, or via pigeon post at University College, OX1 4BH) and he'll have them for you at the door. £7 for drinkers, £3.50 for non-drinkers. If you pay at the door, the price is £8 for drinkers, £4.00 for non-drinkers.

There are also two Bonus Video Meetings. These will occur in the same room as the Library and Discussion meetings, starting at 2pm. On Saturday, 4th Week, we will be showing all three [Back to the Future](#) videos, and on Saturday, 6th Week we will be showing the first half of [Angel](#), series one, unmutated by [Channel 4](#).

Remember, you can come to any meeting, but Freshers' Drinks are happening Sunday, 1st Week in Balliol (that's the first Sunday of term).

### 9th Week

All meetings start at 8pm.

The library is split between two rooms in St. John's College. We'll probably be basing meetings in Mike Froggat's room, using Dave Sheldon's room for overspill and access to that half of the books. Both rooms are in Tommy White Quad, which is the large one with sixties architecture and the bar. To reach it, go left in the front quad by the lodge, straight across the next quad, and down the covered passage in the corner. Mike's room is staircase 8, room 29, right at the very top. Dave's room is staircase 6, room 4.

Video meetings are in Magdalen JCR. Go in through the porter's lodge on High St and head for the second quad on the left (the first is easy to miss; you have to turn immediately left after leaving the lodge to notice it. But if I didn't point out that there are two someone would inevitably go wrong : - ) . You should then pass the chapel on your right. Bear right through cloisters, then left at the big stone steps (which will be on your right. It leads up to Hall, if you're interested). If you don't turn here, you'll walk into the bar (which you may prefer, who knows?). Anyway, you then want the first staircase on the right (normal-sized, this time). Up one flight, then the JCR will be right in front of you. You want the room on the right (with the pool table).

Discussion meetings are in Ruth's room, Balliol staircase 17, room 10. If you don't know the door code, please [contact Ruth](#).

# OUSFG Hilary Termcard 2001 (Provisional)

Sunday meetings are [library](#) meetings (from 8pm). Sunday of 7th Week will also be the OUSFG Annual General Meeting. Wednesdays (from 8pm) mostly alternate between video and discussion meeting, as follows:-

	Discussion	Tom and Mike: <i>Utopias</i>
7th Week	Video Meeting	<a href="#">X-Men</a> and <a href="#">Mystery Men</a>
8th Week	Silly Games	

On Saturday of 4th week, many of us will be going to [Picocon](#). The **banquet** will be on Saturday of 6th week. There will be a bonus video meeting (in the library), showing [Angel](#), on Saturday of 6th week (TBC).

**Video meetings** are held in Magdalen JCR TV Room. To get there, follow the path right from Magdalen Lodge under an archway and into the quad with the cloisters. Go right, around the quad, until you reach the staircase on the opposite side (labelled JCR) and go up the stairs. Go through the double doors on the first floor and turn right into the TV room. If these doors are locked, please knock loudly.

**Library meetings, discussion meetings**, the bonus video meeting, and the AGM are also held in Magdalen, but to get there, you must turn left from the Lodge. Go under a medium-sized tower into St Swithuns' Quad and exit through the opposite corner. Turn left and then turn right towards the new block of buildings near the gate. Go under the archway, and you want the second door on the right, and the buzzer labelled "Niall".

# OUSFG Trinity Termcard 2001 (Provisional)

Sunday meetings are library meetings in Niall's room (8pm to midnight). Wednesdays (from 8pm) mostly alternate between video and discussion meeting, as follows:-

Wednesday Meetings		
1st Week	Video meeting	<a href="#">Spaced</a> (season 1, episodes 1-2); then <a href="#">Galaxy Quest</a>
2nd Week	Discussion	<i>Top 10 lists</i>
3rd Week	<b>Author Meeting</b>	<a href="#">Ian Watson</a>
4th Week	Discussion	Geneva: <i>Worth worshipping? Gods in genre fiction</i>
5th Week	Video Meeting	<a href="#">Spaced</a> (season 1, episodes 3-4); then <a href="#">The Cell</a> (not <del><a href="#">Forbidden Planet</a></del> )
6th Week	Discussion	
7th Week	Video Meeting	<a href="#">Spaced</a> (season 1, episodes 5-6); then <a href="#">Dark Star</a>
8th Week	Silly Games	(Niall's room)

There will be a bonus video meeting showing [The 10th Kingdom](#) on Saturday of 2nd week in Niall's room.

**Video meetings** are held in St Johns, 8pm to midnight. Directions: Enter St. Johns through front gate. Take first left, past chapel and hall, through into North Quad. Go to far end of quad and through tunnel to Tommy White Quad. Down the steps on your left and across the gardens to the bottom of Staircase 8. On your left is a door, marked MCR I think. Hopefully this will be wedged open; come in and go through the door on the left. If the first door isn't wedged open take a few steps forward and tap one of the thin glass panes; someone will come and let you in.

**Discussion meetings** are in the Blue Boar Seminar Room in Christ Church. Go through the main gate and head for the far left hand corner of the quad. Follow your nose straight ahead until you get to a blue door - the doorcode is 1510, go through into a passage into the next open air bit, turn left down some shallow steps, and across into a residential looking quad. Follow the path round, and up a slope/steps on the opposite side. The Blue Boar room is in the basement of the block you should now be facing - go down the steps, same door code, and turn left into the room.

[Ian Watson](#) will be talking to us this term about his rôle in the film [AI](#) (Aunty Tanaqui recommends: [this](#) and [this](#)). This will take place in the Blue Boar Seminar Room in Christ Church (see above) at 8:15pm on Wednesday of 3rd Week (9th May).

The **Punt Party** will be on Saturday of 7th Week.

# OUSFG Hilary Termcard 2004

**Every Sunday:** [Library](#) Meetings (and [AGM](#) in 7th Week) from 8:30pm in Sebastian's room, [Martin Building, Holywell Manor](#), Room 10.

The Martin building is part of the Holywell Manor grad complex for Balliol. It's on St Cross Rd opposite Holywell Manor itself which is on the corner of St Cross and Manor Roads (the road that leads to St Catz). Sebastian's number is 281364. There is a doorbell out the front but it rings throughout the whole building. If you are unsure either give a ring on approach or just drop into the Manor itself and ask one of the friendly porters and they will call for you.

**Wednesday discussion meetings** and **speaker meeting** (see below for topics) are held at 8pm in [Jesus College](#) in Seminar Room A. From the entrance to Jesus, go straight across first quad, through an archway into second quad and turn right. Go through another archway and turn left. Staircase XVIII is the modern block straight ahead. Go up the steps and through the door.

**Wednesday video meetings** (see below for programme) start at 8pm in the Mac Building JCR in [Pembroke College \(map\)](#), which is on the road off St Aldates, opposite the Christ Church front door. Go down to the end, to the large wooden doors on your left (kind of in a corner) where, if you are on time, Mark will be waiting to let you in. If you get in on your own, go through the main entrance into a quad, and go through the passageway to your right, into another quad. Follow the path around past the building on the right, go through an archway, between some more buildings (a toilet block and staircase 8) and into a third quad with houses on the far side. Turn left and walk all the way down to the large black gates. Walk up the steps to your right, around the corner and there's the door to the building you want. This will be locked, so knock on the window to your left as you reach the top of the steps for someone to come and let you in.

10 Oct	Sunday	1st Week	<b>Freshers' Drinks</b>	4-6pm in the bar of <a href="#">Holywell Manor</a> (just below the library). It would probably be a bad idea to include a <a href="#">link</a> to descriptions of previous Freshers' Drinks on the Wiki.
13 Oct	Wednesday	1st Week	Discussion	<i>SF Books to films</i> : Examples of good and bad ones, why they are good/bad, and how adaptations should be handled to produce a good one. The term's video meetings will also be linked to this meeting, showing some examples of good films based on books.

27 Oct	Wednesday	3rd Week	Discussion	<i>Story Synthesis</i> led by Nick Clarke - in <a href="#">St Hilda's</a> Lady Brodie Room. The room is in the Hall Building, which is the first one you see directly opposite you as you go through the gates, and it's signposted as soon as you go into hall. There'll be someone waiting at the entrance before the meeting to wave people in the general direction. Working within the constraints of a few required plot elements can we come up with ideas and plot for a book or film? Previous stories have involved teleporting Swiss plane crash victims ( <i>or are they?</i> ) biotech (somehow involving the <a href="#">Great God Cthulhu</a> and a naked cloned murderer played by <a href="#">SM Gellar</a> ), alien contact (superintelligent bears rescue space station survivors), time travel, and cloning.

19 Jan	Wednesday	1st Week	Video	<a href="#">Shaun of the Dead</a>
26 Jan	Wednesday	2nd Week	Discussion	Quiz - Back by popular demand, the OUSFG quiz. People bring along any questions they feel would be suitable for an OUSFG quiz (i.e. vaguely SF & F related), often in a themed round. We then split into teams, and each person takes turns setting their questions to the other teams. The questions tend to require lateral thinking rather than detailed knowledge, so don't be put off if you are only an occasional reader/filmgoer - many of the old hands are shit ignirent, so you can't fail to raise the quality of your team.
2 Feb	Wednesday	3rd Week	Video	<a href="#">The Manchurian Candidate (1962 version)</a>
9 Feb	Wednesday	4th Week	Discussion	author and space expert, Colin Jack, will lead a discussion on <i>Easy Travel To Other Planets</i> .  One of the oldest dreams of SF is to find a really cool way to explore the universe. In fact the logo on the official OUSFG T-shirt used to be <i>Per Dementia Ad Astra</i> . I have long dreamed about lateral-thinking forms of space travel, and to my amazement actually got a grant from the European Space Agency to develop one of them.  Today, however, I will be talking about "seriously" eccentric ideas for getting to other planets, within and beyond the solar system. This will be an interactive session, and people are invited to bring along their own maddest idea for consideration. There's many a true word spoken in jest....
16 Feb	Wednesday	5th Week	Speaker Meeting	<a href="#">Cory Doctorow</a> at 8pm in The Arts room, staircase 7, <a href="#">Trinity College</a> ( <a href="#">map</a> ). See the <a href="#">meeting announcement</a> for more details.
18 Feb	Friday	5th Week	Banquet	from 7pm, in <a href="#">Pembroke College</a> . You need to book by Friday of 4th Week: <a href="#">menu and booking details</a> .
19 Feb	Saturday	5th Week	Picocon	OUSFG's annual day-trip to ICSF's SF & F convention in London.
23 Feb	Wednesday	6th Week	Video	<a href="#">Strange Days</a>
2 Mar	Wednesday	7th Week	Discussion	Nick Clarke on <i>Technobabble and stuff</i> . This meeting will be in <a href="#">Oriel College</a> , Lecture Room 2 ( <a href="#">map</a> ). The room is in the island site, near the point marked 'Harris Building'. You can either try to enter through the O'Brien gate (small entrance from Oriel street), or, if it's locked, you can enter through the lodge, then turn left and enter second quad, carry on across second quad, taking the passage to the left, through the tunnel, and then turn left to emerge where you would be if you'd come through the O'Brien gate. Once you're there, you want to head straight as if you were coming in through the gate, then turn left when you can and go through the door in the tall green building up ahead. LR2 is on the third floor.
6 Mar	Sunday	8th Week	AGM	Annual General Meeting (in the <a href="#">Library</a> )
9 Mar	Wednesday	8th Week	Silly Games	in <a href="#">St. John's</a> , Graves Room.

Drop in for obligation-free drinks and nibbles, introductions, and conversation! It would probably be a bad idea to include a <a href="#">link</a> to descriptions of previous Freshers' Drinks.
10 Oct	Wednesday	1st Week	Discussion	<i>Saving the World: how to repair environmental damage to planet Earth.</i> Discussion in St Hilda's Lady Brodie Room, led by Colin. Triffids? Asteroid collisions? Greenhouse effect? Someday we might have to save the world for real. Luckily, SF has given us lots of ideas! Come along for a lively discussion in St Hilda's College Lady Brodie Room.
17 Oct	Wednesday	2nd Week	Video	<a href="#">Children of Men</a> in New College Lecture Room 6. In 2027, as humankind faces the likelihood of its own extinction, a disillusioned government agent agrees to help transport and protect a miraculously pregnant woman to a sanctuary at sea where her child's birth may help scientists to save the future of mankind (Dir: Alfonso Cuarón).
24 Oct	Wednesday	3rd Week	Discussion	<a href="#">OUSFG Awards</a> discussion in St Hilda's Lady Brodie Room, run by Owen. 7 Nov	Wednesday	5th Week	Discussion	<i>SF in Computer Games</i> discussion in New College Lecture Room 4, led by Zhifan. A Case for Speculative Fiction Stories in Computer Games: on the surface, it seems games should only interest people who have a competitive streak or seeking an adrenaline rush. But there is surprising breath and depth when it comes to narratives, and a lot of excellent-SF filled fun can be had. So come and share your own experiences, or hear the advantages that this relatively new medium can provide.
8 Nov	Thursday	5th Week	Quiz	Oxford Geek Quiz - battle of wits and knowledge against Docsoc, Talksoc, RPGsoc, et al. 8pm (doors open 7.30ish), North Quad Lecture Room, Staircase 4, <a href="#">St. John's College</a> .
14 Nov	Wednesday	6th Week	Discussion	<i>Is Scientific Accuracy Important in Science Fiction?</i> Discussion in St Hilda's Lady Brodie Room, led by David. As anyone who has used a Thermos flask will know, a vacuum is a great thermal insulator. But in Hollywood, a movie character unlucky enough to fall out of their spaceship will instantly freeze solid - and you will probably hear it happening. Does science fiction have to play fast and loose with the real science? Would insisting on scientific accuracy lead to boring stories and dull visuals? Or are such goofs a cause of the public's scientific illiteracy, leading to poor decisions by voters and policy makers? Come and discuss this, while sharing your [least] favourite examples. Mentioning the Kessel Run is specifically forbidden.
21 Nov	Wednesday	7th Week	Video	TV Night in New College Lecture Room 4. A chance to recommend or request your favourite TV episodes.

Go straight on, and the South JCR is on your left before you get to the stairs.

28 Nov Wednesday 8th Week Discussion Recommendations and Readings in New College Lecture Room 6. Bring your favourite passages from SF books, and read them or have them read by our resident Orator, talk about why you like them.

# OUSFG Trinity Termcard 2007

**Sunday Library Meetings** are from 7:30pm in Heather's room in [St Hilda's](#) Christina Barratt Building, room 212. Here are some detailed directions from Heather:

Past the porters' lodge, there should be a black signpost in front of you; follow the sign for Christina Barratt Building. This entails going left until you come to South Building. Go into South Building through the door with the black sign next to it, then go through the next door, and you should be in the foyer of South. Go through the door in the far left corner. There should be double doors leading outside to your right; go outside and along the path, heading towards the Hideous Sixties Building of Doom. Follow the path when it goes left then straight ahead (you should be under a covered walkway). To your right is the Hideous Sixties Building of Doom, but I don't live there; there are two small openings in the wall on the left, and if you go through one of those you should be in front of a Shiny Modern Building of Joy. This should be signed as the Christina Barratt Building. Go inside and ascend the steps up to the second floor, then wander along the corridor until you find room 212. That's my room!

**Wednesday discussion meetings** (see below for topics) and **Silly Games** are held at 8pm in the [Lady Brodie Room](#) in [St Hilda's College](#). The room is in the Hall Building, which is the first one you see directly opposite you as you go through the gates, and it's signposted as soon as you go into hall.

22 Oct	Wednesday	2nd Week	Video	<a href="#">Blade Runner</a> in New College Lecture Room 4. Ridley Scott's Science Fiction noir classic, loosely based on Philip K. Dick's <i>Do Androids Dream of Electric Sheep?</i> . A 2004 <i>Guardian</i> poll voted this the best SF movie of all time. If you haven't seen it before, come find out whether you agree. 3 Dec Wednesday 8th Week **Author**

St Catherine's College is at the end of Manor Road, which is off Saint Cross Road to the east of the city centre ([map](#)). For the Bernard Sunley Building, go over the bridge into the college, then turn right just before the new Porter's Lodge. Turn right again, then left when you get to a round circular building (the bike shed). Go straight on for a bit past a brick wall, then turn left to cross the moat and go into the quad. There should now be a circle of grass and a large tree in front of you. Turn right and walk the entire length of the building that's on your right. At the end turn left, cross the small garden\* and go into the Bernard Sunley Building. Or use this [map of the college](#).

\* At this point, if you look and listen carefully, you'll find a ventilation shaft leading deep into the earth. Beware of Morlocks and ensure your time machine is securely locked.

**Wednesday video meetings** (see below for programme and locations) start at 8pm.

23 Apr	Wednesday	1st Week	Discussion	<i>Isms</i> (David). Speculative Fiction has a long history of exploring issues of discrimination, such as racism, sexism, homophobia and disability discrimination. Sometimes it challenges them, sometimes it panders to them. I will start the discussion by presenting a few examples of the good and the bad. Then we can discuss various questions of how writers handle the subject. It would be great to have people come and suggest some more examples they loved/hated; but as usual please come even if you just want to listen!
30 Apr	Wednesday	2nd Week	Video	<a href="#">The Prophecy</a> , introduced by Tim in <a href="#">New College</a> Lecture Room 6 - marked "D" on this <a href="#">map</a> (or <a href="#">PDF</a> ).

**Sunday Library Meetings** (starting 2nd Week, 25th January) are held from 8pm till late in Thomas's room, in Holywell Street 6/7 ([map](#)), room 14. Go through the big wooden door to the Merton College Annexe on Holywell Street (nearly opposite the New College entrance). The closest door to Holywell 6/7 is immediately to your right, just before the porter's lodge ([another map](#)). Ring the buzzer for room 14 to be let in. Inside you need to go upstairs, downstairs, and up to room 14 at the top. You can ask at the door to be collected if you think you might get lost. (If the buzzer doesn't work, ask the porter to ring Thomas Keyton.)

These evenings are an opportunity to socialise, and chat about life, the universe and everything, whilst also perusing and borrowing from OUSFG's library of over 2,400 books.

On Sunday of 1st Week (18th January), we will meet in [The Mitre](#) on the corner of the High Street and Turl Street.

**Wednesday discussion meetings, speaker meetings, and silly games** (see below for topics) are held at 8pm in [Linacre College's](#) ([map](#)) Carolyn Tanner Irish (CTI) Room. Enter the main door of Linacre (up the stairs) and go through the doorway to the right of the porter's booth. Go up two flights of stairs (following signs for the CTI room). ## Termcard

21 Jan	Wednesday	1st Week	Video	<a href="#">WALL-E</a> . Pixar animated comedy SF. What more can anyone want?
28 Jan	Wednesday	2nd Week	Discussion	<i>The life and times of a Dark Lord</i> . Discussion led by Oliver. For every Hero there is a Dark Lord. Wreathed in shadows and laughing manically from a volcanically unstable lair the Dark Lord will do everything in their power to destroy their nemesis. Whether it be through manipulating governments, raising terrible armies or magic jewelry the Dark Lord will generally make themselves a nuisance throughout the "main quest". Of course in the end the Dark Lord will be thwarted by the hero using an enchanted sword, their own magic jewelry, structural features of their lair or a combination thereof. Despite their inevitable end Dark Lords show a remarkable diversity in both phenotype and habitat. We will look at the various incarnations and lives of Dark Lords in science fiction and fantasy and pick out the themes and common elements that make them one of the best fictitious clichés. We might even try to design a Dark Lord ourselves.
4 Feb	Wednesday	3rd Week	Video	<a href="#">Akira</a> . The classic anime.
11 Feb	Wednesday	4th Week	Silly Games	8pm in Linacre CTI Room.
18 Feb	Wednesday	5th Week	Video	<a href="#">Underworld</a> . Vampires v. werewolves.
19 Feb	Thursday	5th Week	Quiz	Oxford Geek Quiz — battle of wits and knowledge against Docsoc, Talksoc, RPGsoc, et al. Please bring your own round of questions if you have one (don't tell anyone the answers). 8pm, <a href="#">St John's College</a> , North Quad Lecture Room.
25 Feb	Wednesday	6th Week	Discussion	<i>OUSFG Award</i> shortlist selection. Led by Alex.
1 Mar	Sunday	7th Week	AGM	Annual General Meeting (as part of the Library Meeting).
4 Mar	Wednesday	7th Week	<b>Speaker</b>	<a href="#">Jack Cohen</a> is a biologist, author, and consultant on alien design for SF novels and TV. He will tell us about <i>The Invention of Reality-Based Aliens</i> . I have been involved in the invention of many fictional life forms (e.g. McCaffrey's Dragons of <i>Pern</i> , Harrison's Yilane of <i>West of Eden</i> , several by Niven and White). We should remain true to real biology, to invent a new series of peculiarities which could replace our human lot (airway-crossing-food-way, the excretory/genital mix-up which generates so many neuroses - and fiction plots, of course - hair, haemoglobin, teeth-from-scales, and so on). The "universal" evolutionary solutions must be retained (like homeothermy, waterproof skin, limbs, sex, and - some kinds of - intelligence). The real difficulty is artistic, not primarily biological; it is to lose the anthropomorphism without losing communication with the audience.
7 Mar	Saturday	7th Week	<b>Banquet</b>	Black-tie dinner at Pierre Victoire's (on Little Clarendon Street), 6pm. Please contact Freya Freestone ( <a href="mailto:ousfg@herald.ox.ac.uk">ousfg@herald.ox.ac.uk</a> ) to book a place.
11 Mar	Wednesday	8th Week	<b>Speaker</b>	<a href="#">Stephen Briggs</a> has adapted most of Terry Pratchett's Discworld novels for the stage, in which he plays the "definitive" Lord Vetinari. He is co-author (with Pratchett) of <i>The Discworld Companion</i> and other guides to the Discworld.

**Sunday Library Meetings** (from 2nd Week, 18th October, to 7th Week, 22nd November) are held from 8pm till late in Eck's room, Liddon 1702 in [Keble](#) ([map](#)).

Directions: To get in the Keble main gate, ring the bell and say you are visiting Calum Devlin. Then through the porters lodge, go forward about 2/3 of the way, turn right and cross the quad. Straight in front is the door to staircase 7. If you can get in here, turn left, straight to the end and through the door in front of you. 1702 is on the left. If the door to staircase 7 is locked, Eck's room is the ground-floor triple window to the left (just to the right the next staircase): shout or throw some gravel and someone will let you in. If you get lost or stuck, you can phone the Keble lodge on 01865-272727 and ask for extension 22416.

These evenings are an opportunity to socialise, and chat about life, the universe and everything, whilst also perusing and borrowing from OUSFG's library of over 2,400 books.

**Wednesday discussion and video meetings** (see below for topics) are held at 8pm in [New College](#) Lecture Room 4 (marked "C" on this [map](#); or [PDF](#)).

The **author talk** in 7th Week will be in the New College's Conduit Room (marked "E" on the map).

## Termcard

11 Oct	Sunday	1st Week	<b>Freshers' Drinks</b>	Drop in for obligation-free drinks and nibbles, introductions, and conversation! 3–6pm in <a href="#">Balliol College</a> ( <a href="#">map</a> ) Massey Room. Go into the college through the lodge and turn left into the second quad. Walk forwards to the building in front of you, then turn right and go to the back left hand corner. Go through the small passageway here (marked XIX), and the Massey room is on your right.
14 Oct	Wednesday	1st Week	Discussion	<i>Desert Planet Books</i> (or <i>10 books to read before you die</i> ). Discussion in New College (location to be confirmed). What are the ten SF/fantasy books most worth reading? Come along for a lively discussion and argue for your favourite book, or just for reading ideas — don't feel you have to say anything! (Discussion led by Zhifan.)
21 Oct	Wednesday	2nd Week	Discussion	<i>Alien Evolution</i> . Are we alone in the universe? Probably not, but why and just how not alone are we? More interestingly we'll look at what evolutionary biology can tell us about the possible courses life might take on other planets and how similar it would look to life on earth. We'll also try and evolve some aliens of our own and perhaps go onto to ask what sort of psychologies and societies might develop on alien worlds. (Discussion led by Oliver.)
28 Oct	Wednesday	3rd Week	Video	<a href="#">Watchmen</a>
4 Nov	Wednesday	4th Week	Discussion	<i>Human Enhancement</i> . Cybernetic parts to make you stronger; drugs to make you smarter; genetic engineering to make you (or at least, your children...) healthier and happier. In this discussion we'll look at some of the more realistic ways that human bodies could be improved, how it may be done, and what science fiction has had to say on the matter. We may also debate some of the ethical issues raised — a debate that is already relevant with the use of stimulants as "brain-boosting" drugs. (Discussion led by David.)
10 Nov	<b>Tuesday</b>	5th Week	Special discussion	<i>Feminism and Science Fiction</i> . 8pm <a href="#">The Queen's College</a> , Lecture Room B (there should be someone at the lodge to point you in the right direction). Discussion in collaboration with OUSU's Women's Campaign. There's no specific topic past gender and SF, but hopefully it will introduce new readers to SF and highlight the possible gender issues (or lack thereof) in SF. See the <a href="#">WomCam Facebook event page</a> for more details and some possible questions to discuss.
11 Nov	Wednesday	5th Week	Video	<a href="#">Coraline</a>
18 Nov	Wednesday	6th Week	Discussion	Silly Games
25 Nov	Wednesday	7th Week	<b>Author</b>	<a href="#">Frances Hardinge</a> (one of many former OUSFG members turned famous author!), who wrote <i>Verdigris Deep</i> , <i>Gullstruck Island</i> , and the award-winning <i>Fly by Night</i> . 8pm in New College's Conduit Room ( <a href="#">map</a> ).
26 Nov	<b>Thursday</b>	7th Week	Quiz	Oxford Geek Quiz — battle of wits and knowledge against Docsoc, Talksoc, RPGsoc, et al. Please bring your own round of questions if you have one (don't tell anyone the answers). 8pm, <a href="#">St John's College</a> , North Quad Lecture Room.
29 Nov	Sunday	8th Week	<b>Christmas Party</b>	from 6:30pm in <a href="#">Castle Mill</a> Common Room. We will gather to eat festive food, play festive games (all the werewolves wear Santa hats) and speak of festive things. Castle Mill is at the end of Roger Dudman Way. Walk down to the Oxford

train station and past it down the start of the Botley road. Just under the railway bridge is a turnoff to the right (by the YMCA), this is Roger Dudman Way. Follow it down along the railway tracks and over the bridge. You should ignore the turnoff on the left to Vennit Close, but after that you will come to a big quadrangular building with a large sign for Castle Mill. The front gate will be locked but if you stand around outside someone will come get you. Or you can call Oliver on 07986858893 to retrieve you.

2 Dec Wednesday 8th Week Discussion

Philosophy in Science Fiction (Discussion led by Toby, our resident professional philosopher.)

This trading card game has taken library meetings by storm, and so this evening we will create cards for each OUSFGian who would like to be in card form, and maybe OUSFG-like things too - Colin the Elephant, Portal Cake... Expect your photo to be taken (with your permission) in earlier library meetings.

# OUSFG Michaelmas Termcard 2011

**Sunday Library Meetings** (from 2nd Week, 16th October) are held from 8pm till late in [Wadham](#) ([map](#)).

Go in the main entrance. Turn 90 degrees right and go straight leaving the quad through the door ahead. Go up the bridge over the scaffolding. At the bottom on the other side, walk forward into the concrete covered-walkway and turn left. Walk a couple of paces and there is a very short corridor turning off to the left with a door at the end. This is the library - the door is marked "1".

These evenings are an opportunity to socialise, and chat about life, the universe and everything, whilst also perusing and borrowing from OUSFG's library of over 1,400 books.

**Wednesday discussion and video meetings** are held at 8pm (except 9pm in 2nd Week) in either Balliol or the Holywell Annexe of Merton (see termcard below for the location each week).

In Balliol ([map](#)), we are in Lecture Room 23 (this is down the steps at the far right corner of Garden Quad, see [Balliol map](#)).

Merton's Holywell Annexe is at 7 Holywell Street, almost opposite to the New College main entrance ([map](#)). It is nowhere near Merton itself, so don't go there! 12 Oct	Wednesday	1st Week	Discussion	<i>Desert Planet Books</i> (or <i>10 books to read before you die</i> ) in Balliol Lecture Room 23 (this is down the steps at the far right corner of Garden Quad, see <a href="#">Balliol map</a> ). 19 Oct	Wednesday	2nd Week	Discussion	Balliol Lecture Room 23 <b>at 9pm</b> . <i>Zombie Apocalypse Survival corporate training seminar</i> . Did you know that 95% of Oxford colleges and departments do not have a coordinated emergency plan for dealing with an uprising of the living dead? Following the <a href="#">shocking news</a> in June that many local councils do not have any contingency plans for such circumstances, this is cause for some concern. Happily we at OUSFG are well ahead of the crowd having first started advising our members of these risks over 5 years ago and you will be pleased to know we have invited our ex-president, Alex, to give another of his highly practical workshop evenings in order to help you stay safe from the lurching hordes both at home and at university.

Published author, inventor and (most importantly surely?) namesake of the society's elephant mascot, Colin will be leading a discussion about writing good SF based on the forefront of modern science. This will be an opportunity to look at some of the most advanced and weirdest concepts in science, consider what the future might hold for them, and then discuss how to successfully create an SF future-world or (hopefully "and") a narrative around them.
9 Nov	Wednesday	5th Week	Video	in the Holywell Annexe. <a href="#">Inception</a> . Your mind is the scene of the crime.
10 Nov	Thursday	5th Week	Quiz	Oxford Geek Quiz — battle of wits and knowledge against Docsoc, Toksocc, RPGsocc, et al. Bring your own round of questions if you like (don't tell anyone the answers). 8pm, St John's College, North Quad Lecture Room.

16 Jan	Wednesday	1st Week	Discussion	Adaptations and use of medium in SF
23 Jan	Wednesday	2nd Week	Film	
30 Jan	Wednesday	3rd Week	Discussion	Philosophy in SF (run by Jenni)
6 Feb	Wednesday	4th Week	Film	<a href="#">Moon</a> . 250,000 miles from home, the hardest thing to face... is yourself.
13 Feb	Wednesday	5th Week	Discussion	Epic and SF (run by Matt and Emma). "Are you telling me that the <i>Iliad</i> has androids in it? The <i>Iliad</i> has everything in it." - Dan Simmons, <i>Ilium</i> . Epic poetry and SF might seem like unlikely bedfellows, but many SF authors have taken inspiration from these literary classics for their works (Philip Pullman most completely). Some might even consider that these represent the beginnings of the genre with their tales of exploring the boundaries of the known world and exploring others. Focusing on Homer, Chaucer, and Milton (although probably also Hesiod and Virgil) we will show you how essential Epic poetry is to SF, and why they are worth reading (even if you're not a literature nerd)!
14 Feb	Thursday	5th Week	Quiz	Oxford Geek Quiz — battle of wits and knowledge against Docsoc, Tolksoc, RPGsoc, et al. Bring your own round of questions if you like (don't tell anyone the answers). 8pm, St John's College, North Quad Lecture Room.

A 2004 <i>Guardian</i> poll voted this the best SF movie of all time. If you haven't seen it before, come find out whether you agree. If you have seen it, come see it afresh: we will watch the "Final Cut".
27 Feb	Wednesday	7th Week	Discussion	Eugenics and population control in SF (run by Whitney).
2 Mar	Saturday	7th Week	Banquet	7pm at Chutney's Indian Restraunt on New Inn Hall Street.

## Michaelmas Term 1998

Our meetings are on Wednesday and Sunday. Wednesdays are moderately structured: alternately video meetings, and discussion nights. We usually manage an author or so: this year the first four to be arranged have obligingly settled for Wednesdays too.

All Wednesday meetings happen in Ruth O'Reilly's room in [Balliol](#)'s Jowett Walk (Tower 3 Room 7) - directions on request. All Sunday night meetings currently happen in Alex Williams' room in [LMH](#) (Old Old *[sic]* Hall 5). Author nights take place at special venues: this term in [Oriel](#) JCR annexe - take the far left exit from Oriel's first quad', then follow the second quad' around to the right, exiting through the long corridor, and the JCR annexe will be on your right in the third quad'.

Sunday nights are Library nights, when people may access our 2,000 or so fine tomes without just dropping by on our Librarian-President. This night is a chaotic social whirl, abetted by Crap Wine. The senior members of the society try out cheap wines to see if they are good deals after all, and the younger ones try to make them drinkable with anything from sugar to chili sauce.

## Hilary Term 1999

This is the preliminary schedule. Sundays are library meetings - these will be held in [Niall's room](#) in Magdalen's Longwall Street buildings, at 8:00. The exception to this is the first meeting - this Sunday - which starts in Alex's room then moves to Niall's room at about 9:30, so people can more easily find the room. Standard video meetings will hopefully be shown in Magdalen JCR TV room. Meet in the lodge at 8:00. If not, they will be in Ruth's room again. Bonus video meetings will be in Ruth's room, at 8:00.

### Wednesdays:

- 1st week: Videos - Blade Runner and Metropolis
- 2nd week: Discussion - Ruth on terraforming in SF
- 3rd week: Videos - Anime night
- 4th week: Discussion - Tom and Niall on nanotech and stuff, I think.
- 5th week: **Dave Langford**, in Oriel JCR annexe
- 6th week: **Michael Marshall Smith**, in Oriel JCR annexe
- 7th week: Videos - Something (can't remember) and Cube
- 8th week: **Phillip Pullman**, in Oriel JCR annexe

**Sunday 7th week: AGM** - if you want to stand for a committee post, you need to nominate yourself, and get someone to second you. You also need a second if you want to modify the constitution.

**Saturday 7th week: Banquet** - probably in St Johns, probably costing somewhere in the region of twenty quid, black tie or something cool is the dress code, I think.

### Bonus videos:

- Monday 5th week: Mysterious Cities of Gold
- Monday 8th week: Wizard of Oz (with Pink Floyd), Reboot

Note - traditionally, the AGM has been the day after the banquet. This is changing this year, as else not all the committee can make it.

The library is split between two rooms in St. John's College. We'll probably be basing meetings in Mike Froggat's room, using Dave Sheldon's room for overspill and access to that half of the books. Both rooms are in Tommy White Quad, which is the large one with sixties architecture and the bar. To reach it, go left in the front quad by the lodge, straight across the next quad, and down the covered passage in the corner. Mike's room is staircase 8, room 29, right at the very top. Dave's room is staircase 6, room 4.

St. Hilda's Lady Brodie Room is in the building opposite the gate (across the turning circle). Go up the stairs inside, and follow the signs.
