Houston ...

If you have anything you want to get off your chest regarding the convention or a problem that has not been sorted, there will be a gripe session on Saturday and Sunday mornings and a main feedback session on Monday. Please be sensible about this. There is no point waiting until a gripe session to tell us that you have had no hot water or towels etc. Tell the hotel, if you do not get a result tell a committee member, if that fails shout at Alice at the gripe session, trust her when she tells you "My committee will do anything to avoid me shouting at them". We will do our best to iron out problems that occur in areas that we have control over, but remember we cannot change the shape of your bedroom.

Access

The convention has registered with Electrical Eggs. For those of you who need special access the registration team will have details and badges if needed.

Some of the programme items

are in Conference 11 or 12.

These are upstairs. If you normally use a chair to get around but can manage stairs, you can leave your regular chair in the space at the bottom of the stairs and use one of our chairs to get around the programme items. In an emergency, a responsible person from Ops will assist you in using the Evac Chair system to get down the stairs to your own chair.

Communicating

Up-to-date information on programme changes, restaurant reviews, gossip, photos and so on will appear in the newsletter. Several editions will appear throughout the con. If you want to contribute to the newsletter (*The Acme Intelligencer*), please go the Newsroom in Conference 17, or drop your item off at the collection point at the bottom of the stairs. You can also volunteer to join the newsletter distribution team: you get to wander the convention and be welcomed by everyone you meet.

There is also an Information Point at Registration (where you got this from), which is open:

Friday 11:00 - 19:00
Saturday 10:00 - 18:00
Sunday 10:00 - 18:00

Where and When

The Dealers' Room in the London Suite is open

Dave Lally Programme -
Conference 14
Newsroom -
Conference 17

Details about opening and closing times are available from the appropriate room.

Masquerade

The Masquerade will take place in the Paris on Saturday at 20:00. There will be an arranged photo shoot, probably while the judges are deliberating. **ABSOLUTELY NO FLASH PHOTOGRAPHY DURING THE EVENT.**

A reminder to any using weapons as part of their entry: all weapons should be peace bonded outside of your own entry. Failure to do this will result in your weapons being confiscated and there will be no rule of appeal. If you are planning to enter the Masquerade, you must attend the Masquerade Rehearsal in the Paris at 10:00 Saturday.

Just a few rules ...

Badges

Your badge should be worn at all times during the convention. It lets people know who you are. If you see someone without a badge, be nice and point them in the direction of registration. You may just make a new friend. If you do not have a badge on you will not be allowed access to the convention. If you lose your badge you can get another one from registration. There may be a small charge.

Children

Alison Scott is running a crèche. If you have already contacted her, she will make arrangements with you with you as to when to leave and pick up your child and taking turns at helping in the crèche if appropriate. The crèche is in room 314. Outside of these times the child is your own responsibility. You are responsible for their safety and behaviour. Whilst Alice loves to see children running around and having fun she does not like to see them disrupting programme items and **she is not talking about crying babies here.** If your child disrupts an item, Alice is afraid you will be asked to leave.

Weapons

Any edged weapons real or realistic prop are to be peace

bonded (props are excepted for the masquerade if worn by participants). Real or realistic guns or projectile weaponry are forbidden (props are excepted for the masquerade if worn by participants). Please use your common sense as it will save people being upset. The final decision rests either with Nigel Furlong, Committee member responsible for Operations or John Harold, Head of Ops Rovers. To get your stuff peace bonded, please go to Ops in Conference 16.

Recording

Recording, by photo, video or sound, of any programme items is not allowed unless you have the express permission of all participants. It is not allowed at all during the Filk Concert and the Masquerade.

Smoking

The Snooty Fox bar is the designated smoking area. Otherwise the con is non-smoking, unless you are appearing on a programme item or if you are behind your own table in the Dealers' Room.

BYOB

The usual corkage regulations apply, for a rough guide on a bottle of wine it is £8.00. The Committee takes no responsibility if the hotel staff discover convention members bringing in food or drink.

Food & Drink

The Snooty Fox bar is open from *11:00* till early morning, the Brasserie as a bar from *17:30 - 23:00*. There is also a bar in the Fanroom in the Lakeside. The bar in Westminster may be open in the evening after the programme has finished. Outside regular licensing hours a key card will be required to buy booze, one is available to all residents on request at hotel reception - you should have been offered one on arrival.

Breakfast will be in the Brasserie from *08:00 - 11:00*.

Cheap food is available in the Brasserie, from *13:00 - 15:00*, and again from *17:30 - 20:30*.

Baguettes will be available through the day and evening.

If you are going out to eat, there are many restaurants in Burbage and Hinckley. Further afield are the Indian restaurants of Leicester, particularly in the Belgrave area, the American-tourist-attracting half-timbered pubs and tea-shoppes of Warwickshire, and the city centre standbys of Birmingham and Coventry. Just over the road is Barnacles, the seafood restau-

rant. For local information and phone numbers, please ask at hotel reception. If you find somewhere great that you would like to recommend, please drop the details in to the Newsroom in Conference 17.

Gopher Tickets will be issued to gophers and staff for work done during a shift by their manager. The tickets are redeemable for food or drink in the hotel up to the value of £2. If the value is less than £2, the value is to be written on the ticket. If you have trouble redeeming your tickets then report the problem to your manager.

Hotel

Checkout time is normally *11:00*, but has been extended to *12:00* for Monday only.

Parking costs £1.00 per car per night, if you are only visiting for the day it's free. You will need to validate your parking voucher at the machine on the reception desk to exit the car park.

Please be aware of current precautions against transmitting foot and mouth - this means staying on the hotel grounds, please don't walk into the fields around the hotel, or use any non-tarmac public footpaths.

Awards

As a member of Paragon, you can vote for a variety of awards. Details about what most of these are for are in your Programme Book.

Hall Costume

On Sunday, people can dress up in Hall Costumes. You can vote for the best costume. These costumes must not have been in the Masquerade. In your membership pack you can find a Hall Costume token. Please give this token to the person in the best costume. These tokens have to be handed in to Registration by 18:00 to be counted. The winner will be announced during the Award Ceremony, Sunday at 22:00. If you feel inspired to enter and haven't brought a costume, why not spend some time in the Chaos Costuming Workshop in Conference 5?

Doc Weir

You will find your Doc Weir voting slip inside your membership pack. Please nominate a winner and hand the slip back to Registration by Sunday 18:00. The winner will be announced during the Award Ceremony, Sunday at 22:00.

BSFA

BSFA Award voting slips will be distributed around the convention or are available from the BSFA table in the Dealers' Room. Please return them to the BSFA table by 12:00 Sunday.

Phlosque

Details on this award are available in the Art Show in Conference 15/18. The winner will be announced during the Award Ceremony, Sunday at 22:00.

Want to really join in?

A good analogy for a convention would be a swan travelling along a river, above the surface calm and collected, below the surface frantic paddling. The Eastercon works with the aid of volunteers. Can you give ten minutes to help move some chairs or the odd item? or even give an hour in helping the tech crew or being the eyes and ears of the con as an Ops Rover or just helping make the convention work? Please visit the Ops and Gopher room (Conference 16) to volunteer.

The Programme

The main programme and the fan programme have been assembled with a view to giving the con member a wide choice. The Programme for Paragon published here is as up-to-date as any plan can be before contact with the enemy. The newsletter (*The Acme Intelligencer*) and notices will provide the latest information. Full details are in your Programme Book, and fan programme details are available from the Fanroom in the Lakeside.

The main programme will happen in the **Paris** (the main con room), the **Westminster** (the second con room), and several minor conference rooms. The fan programme will happen in the **Lakeside**.

Not everything that happens at the convention happens in carefully timetabled blocks. There are workshops, whole day and whole con activities.

The Great Easter Egg hunt

On Sunday we will stage an Easter Egg hunt for great and small. We'll form teams, and send them to find eggs. These will contain questions. Answer the question, find the solution, find the great Easter Egg.

Dave Lally Programme

There are people who have been to conventions for years and still do not know what happens in the Dave Lally programme. Are you going to be one of them?

Short Fiction Readings

Peter T Garrett is organising a ring of short fiction readings by various authors. This will start after the opening ceremony and go on at various places and times over the convention. Short fiction has never gotten the attention it deserves. We want to change that, by bringing it closer to you.

Our Program Supremo Writes

"I must thank my braintrust at this point (Judith Proctor, John Bray, Chris Tregenza, Jess Bennett, Farah Mendelsohn, Amanda Baker, Dave Clements and Martin Easterbrook) without whom this programme would not have been done. Well done everybody! (If I have forgotten someone, please forgive me and count yourself amongst the names.)"

Sabine Furlong

Threads

There are some items which form mini-series within the programme:

Author Dialogues

This is a one to one of the special kind. Two authors or publishers talk about anything they like. You'll get an in depth view of what they are really like and what really interests them.

Author Readings

An author, a book, a round of chairs - enjoy a piece of literature read by the person who wrote it. Who knows what new insights you can gain?

Desert Island Discs

Always wondered about the secret passions of our Guests of Honour? Come to hear them lay their souls bare. Find out what they could not live without if they ever got stranded on a desert island planet. Chaired by Chris O'Shea.

Time Times 4

The BSFA wants to challenge your sense of time with 4 different items about, well, time. Come and be taken away to another time and place. You could go to the future or the past. Surprise yourself.

What's the Point of ...

The unifying thread of many Fanroom programme items is "What's the Point of..." and we're trying to get back to first principles on these ideas and see how many bear carrying on.

Gripe Sessions

If you have a problem with anything connected to the con and cannot solve it yourself, come and let us know. We might not be able to help either, but at least you can have a good whinge and feel better all day.

Friday

What is harder to predict: Social or Technological Change?

A discussion, looking at real world and literary examples.

Chaired by Mike Scott Rohan
