Author's Agent

Science-Fiction Weird Fantasy Detective Mystery

I welcome the mss. of new writers, offering special arrangements to any unable to pay reading fees (although mine are the lowest in the field).

This agency has assisted such writers as Donald A. Wollheim, Lee Gregor, S. D. Gottesman, Paul Dennis Lavond, Basil Wells, John L. Chapman—new-comers all,—as well as handling the work of such sturdy oldtimers as David H. Keller, Charles R. Tanner, etc.

Collaborations a specialty.

Do Unseen Powers Direct Our Lives?

ARE the tales of strange human powers false? Can the mysterious feats performed by the mystics of the Orient be explained away as only illusions? Is there an intangible bond with the universe beyond which draws mankind on? Does a mighty Cosmic intelligence from the reaches of space ebb and flow through the deep recesses of the mind, forming a river of wisdom which can carry men and women to the heights of personal achievement?

Have You Had These Experiences?

... that unmistakable feeling that you have taken the wrong course of action, that you have violated some inner, unexpressed, better judgment. The sudden realization that the silent whisperings of self are cautioning you to keep your own counsel — not to speak words on the tip of your tongue in the presence of another. That something which pushes you forward when you hesitate, or restrains you when you are apt to make a wrong move.

These urges are the subtle influence which when understood and directed has made thousands of men and women masters of their lives. There IS a source of intelligence within you as natural as your senses of sight and hearing, and

more dependable, which you are NOT using now! Challenge this statement! Dare the Rosicrucians to reveal the functions of this Cosmic mind and its great possibilities to you.
