AND IN CLOSING WE WOULD LIKE TO  
SAY...

Despite the suspicions we had now and then, that we'd each have at least one ulcer ere the Twenty-First World Science Fiction Convention was over, the Committee survived with no deaths or permanently crippling disabilities.

Why, if you'll believe anything so contrary to all precedent and experience, the con didn't even break up the local club; it's as lively as ever. I don't ask you to believe that we enjoyed it -- nobody has the right to demand that much Suspension of Disbelief, after all -- but I direct your attention to the Treasurer's report on page 4. You note that the expenses do not include any Thank Ghod It's Over Party, and draw your own conclusion.

But don't go saying I didn't warn you, when you see us looking all cheerful as we welcome you back to Baltimore in 1967...

## Proceedings \_\_\_\_\_

The DisCon Committee is unblushingly stealing an idea from 1962's ChiCon and publishing a transcription of the Proceedings of the Twenty-First World Science Fiction Convention. Like last year's excellent Chicon Proceedings, the DisCon Proceedings will be professionally produced as a sewn book in stiff paper covers.

Price to members of the DisCon will be \$1 -- we've picked up part of the tab for you in advance. Non-members can obtain it for \$3.50. Just fill in the enclosed sticker with the name & address to which your copy is to be sent, and send to:

GROSS EXPENSES 6237.43

Everybody's Tryin' Ta Get Inta Da Act, Dept.: The DisCon Committee learns with some surprise that a small group, mainly of New York fans, has been boosting a competitive rump convention over Labor Day weekend, supposedly to be hosted by Poul Anderson and Tony Boucher. One member of the clique even put an ad in F&SF asking people to boycott the Pacificon II.

Poul and Tony have categorically denied any sponsorship of a competitive "parallel" convention. While the usual private house parties will undoubtedly be going on all during the con, claims of pro support for an antagonistic pseudo-con ("Non-Con") appear to spring from some Budding Author working his imagination overtime.

WHAT CAN I DO  
LABOR DAYS?

Some ridiculous people will tell you that we introduced these negative numbers and plus-and-minus 1's because we wanted to give as many people as possible low numbers and make it beyond anyone to decide who had the real lowest number. Don't you believe one word of it. We did it all because we are Black Hearted and Evil.

Hoping you are the same,

Dick Eney
