Message from the Chair of Torcon 3, the 61st World Science Fiction Convention

Upon hearing that the bid had successfully secured the 2003 Worldcon, my wife Athena turned to me and wryly commented, "I guess you'll be wanting more Beavers now". She is the artist who created and has been drawing the Bid Beaver since 1996, like the one on the left. {Note the subtle message below it}. All bid members, and those friends who have volunteered to help out these past 4 years should be justifiably proud of thier contributions.

It is an honour that fandom has again chosen Toronto to host the first non-US Worldcon; this time in the 21st century. (Torcon 1 was the first non-US Worldcon in the 20th century).

I look forward to continuing the legacies of Torcon.

WE WANT YOU FOR THE CON

Peter Jarvis
